EDICT OF GOVERNMENT

In order to promote public education and public safety, equal justice for all, a better informed citizenry, the rule of law, world trade and world peace, this legal document is hereby made available on a noncommercial basis, as it is the right of all humans to know and speak the laws that govern them.

EAST AFRICAN STANDARD

Brandy — Specification

EAST AFRICAN COMMUNITY
Foreword

Development of the East African Standards has been necessitated by the need for harmonizing requirements governing quality of products and services in the East African Community. It is envisaged that through harmonized standardization, trade barriers that are encountered when goods and services are exchanged within the Community will be removed.

In order to achieve this objective, the Community established an East African Standards Committee mandated to develop and issue East African Standards.

The Committee is composed of representatives of the National Standards Bodies in Partner States, together with the representatives from the private sectors and consumer organizations. Draft East African Standards are circulated to stakeholders through the National Standards Bodies in the Partner States. The comments received are discussed and incorporated before finalization of standards, in accordance with the procedures of the Community.

East African Standards are subject to review, to keep pace with technological advances. Users of the East African Standards are therefore expected to ensure that they always have the latest versions of the standards they are implementing.
Brandy — Specification

1 Scope

This East African Standard prescribes the requirements for brandies.

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EAS 12, Standard specification for drinking (potable) water
EAS 38, Standard specification for the labelling of pre-packaged foods
EAS 39, Code of practice for hygiene for food and drink manufacturing industries
EAS 104 Alcoholic beverages — Methods of sampling and test
EAS 144, Neutral spirit — Specification

3 Terms and definitions

For the purposes of this standard, the following terms and definitions shall apply.

3.1 grape brandy
distillate obtained solely from the fermented juice of fresh, ripe and sound grapes and aged in pine or oak wooden containers for a period of not less than three years.

3.2 cognac brandy (cognac)
grape brandy distilled in the Cognac region of France in accordance with the French Regulations on cognac.

3.3 fruity brandy
distillate obtained from the fermented juice of fresh, ripe and sound fruits other than grapes.
EAS 143: 2003

3.4 blended brandy
mixture of at least 10 % grape brandy (3.1) with neutral spirit conforming to the requirements of EAS 144, Neutral spirit – Specification.

3.5 blended fruit brandy
mixture of at least 10 % specific fruit brandy with neutral spirit conforming to the requirements of EAS 144, Neutral spirit – Specification.

4 General requirements

4.1 Brandies shall contain not less than 37.5 % ethyl alcohol by volume at 20 °C.

4.2 Brandies shall be clear and free from haze.

4.3 Brandy shall be of a pale yellow or amber colour. Fruit Brandy may be colourless and may contain some permitted food grade colouring substances.

4.4 Brandies shall be manufactured in premises built and maintained under hygienic conditions in accordance with EAS 39 Code of practice for hygiene for food and drink manufacturing industries. The handling equipment such as fermentation tanks, storage tanks, filters, bottling machinery and packing equipment shall be maintained in clean and hygienic conditions.

4.5 Brandies shall comply with the requirements in Table 1
Table 1 — Requirements for Brandies

| x     | Lead (as Pb), mg/kg, max                                                       | 0.1               |

5 Weights and measures

The contents of the products shall occupy not less than 90 % of the total volume capacity of the container.

6 Packaging

Brandies shall be filled into liquor bottles or any food grade container not affecting quality and satisfying requirements of relevant East African Standards.

7 Labelling

Labelling shall be done in accordance with EAS 38 *Standard specification for the labelling of pre-packaged foods* and shall include the following particulars legibly and indelibly marked on the container:

a) name of product, which shall be ‘Brandy’ or ‘X’ brandy in cases of fruit brandy, where X is the name of fruit from which the brandy is made;

b) minimum volume of the contents in litres or millilitres;

c) name and address of manufacturer and packer, distributor, importer or exporter;
EAS 143: 2003

d) coded or open date of manufacture;

e) country of origin;

f) ethyl alcohol content (optional).

8 Sampling and methods of test

Sampling and testing shall be carried out in accordance with EAS 104 *Alcoholic beverages — Methods of sampling and test.*
