

### **EUROPEAN COMMISSION**

ENTERPRISE AND INDUSTRY DIRECTORATE-GENERAL

Chemicals, metals, mechanical, electrical and construction industries; Raw materials Construction, Pressure Equipment, Metrology

Brussels, 1<sup>st</sup> September 2010 M/118 rev.1 EN

## **ADDENDUM TO:**

MANDATE TO CEN/CENELEC

### CONCERNING THE EXECUTION OF STANDARDISATION WORK

### FOR HARMONISED STANDARDS ON

# M118 WASTE WATER ENGINEERING PRODUCTS

- The existing mandate M118 WASTE WATER ENGINEERING PRODUCTS does not include performance characteristic "reaction to fire" for any product
- A request has come from the German delegation to include reaction to fire as a
  performance characteristic for all products in this mandate, as Germany has
  Regulations related to reaction to fire for these products.
- This was discussed at the Preparatory Group meeting 23-24<sup>th</sup> October and no objections were raised.
- The corresponding Commission Decision 97/464/EC will be amended accordingly, i.e. the standard reaction to fire table will be added for each product family.

### Annex A highlights the changes:

### **ANNEX A**

In the tables in Annex 2 of Mandate M118, add "reaction to fire" as a performance characteristic for essential requirement 2, for **all** product families.

These product families are:

### I)-WASTE WATER ENGINEERING PRODUCTS INSIDE BUILDINGS

- A)-Back-flow devices : air admittance valve ventilating pipework inside buildings
- B)-Kits and elements for waste water pumping station and effluent lifting plants inside buildings

### II)-WASTE WATER ENGINEERING PRODUCTS OUTSIDE BUILDINGS

- A)- Kits and elements for waste water treatment plants and on-site treatment equipment for rain water, faecal and organic effluents
- Septic tanks
- **B)- Prefabricated drainage channel:**
- for waste water from buildings and civil engineering works including roads
- C)-Manholes and inspection chambers:

to be used on carriageways, parking areas, hard shoulders and buildings

- D)- Covers, step irons, ladders and handrail for manholes and inspection chambers, gully tops:
- to be used on carriageways, parking areas, hard shoulders and buildings

E)-Separato	rs	

The existing comprehensive table of characteristics is *therefore* to be replaced by:

### COMPREHENSIVE TABLE OF CHARACTERISTICS

### WASTE WATER ENGINEERING PRODUCTS

ER	Performance characteristics	WW			v	VWEP outsic	de		durability
		A) back- flow	B) kits.	A) kits treatment.	B) chanels	C) manholes.	D) tops	E) separators	
1									
2	Reaction to fire	Y	Y	Y	Y	Y	Y	Y	
3	-watertightness -airtightness (non-release of foul air)	Y Y	Y Y	Y	Y	Y			
	effectiveness -effectiveness of treatment	Y		Y				Y	
	-treatment capacity -liquid tightness			Y				Y	Y (against corrosion, chemicals, frost)
1. 4	2OPENING SIZE -load bearing capacity -heat resistance	Y			Y	Y	Y	Y	5.
	-mechanical resistance -deflection under load	Y	Y		Y	Y			
	3MAXIMUM LOAD DEFORMATION(FOR FLEXIBLE BURRIED INSTALLATION)			Y					
	4CRUSHING RESISTANCE (FOR RIGID BURRIED INSTALLATION) -skid resistance			Y			Y		
	-child safety						Y		
5	-noise level		Y						
6									

### WASTE WATER ENGINEERING PRODUCTS INSIDE BUILDINGS (1/2)

#### Under section 1 add:

Product(s)	Intended use(s)	Level(s) or class(es) (Reaction to fire)	Attestation of conformity system(s)
Back-flow devices : air admittance valve ventilating pipework	for uses subject to regulations on reaction to fire	A1*, A2*, B*, C*	1  3 4

System 1: See CPD Annex III.2.(i), without audit-testing of samples

### WASTE WATER ENGINEERING PRODUCTS INSIDE BUILDINGS (2/2)

### Under section 1 add:

Product(s)	Intended use(s)	Level(s) or class(es) (Reaction to fire)	Attestation of conformity system(s)
Kits for waste water pumping station and effluent lifting plants	for uses subject to regulations on reaction to fire	A1*, A2*, B*, C* A1**, A2**, B**, C**, D, E (A1 to E)***, F	1  3 4

System 1: See CPD Annex III.2.(i), without audit-testing of samples

System 3: See CPD Annex III.2.(ii), Second possibility

System 4: See CPD Annex III. 2.(ii), Third possibility

<sup>\*</sup> Products/ materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (e.g. an addition of fire retardants or a limiting of organic material)

<sup>\*\*</sup> Products/ materials not covered by footnote (\*).

<sup>\*\*\*</sup> Products/ materials that do not require to be tested for reaction to fire (e.g. Products/materials of class A1 according to the Decision 96/603/EC, as amended).

System 3: See CPD Annex III.2.(ii), Second possibility

System 4: See CPD Annex III. 2.(ii), Third possibility

<sup>\*</sup> Products/ materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (e.g. an addition of fire retardants or a limiting of organic material)

<sup>\*\*</sup> Products/ materials not covered by footnote (\*).

<sup>\*\*\*</sup> Products/ materials that do not require to be tested for reaction to fire (e.g. Products/materials of class A1 according to the Decision 96/603/EC, as amended).

### WASTE WATER ENGINEERING PRODUCTS OUTSIDE BUILDINGS (1/3)

Under section 1 add:

Product(s)	Intended use(s)	Level(s) or class(es) (Reaction to fire)	Attestation of conformity system(s)
Kits and elements for waste water treatment plants and on-site treatment equipment - Septic tanks	for uses subject to regulations on reaction to fire	A1*, A2*, B*, C* A1**, A2**, B**, C**, D, E (A1 to E)***, F	1  3 4

System 1: See CPD Annex III.2.(i), without audit-testing of samples

### WASTE WATER ENGINEERING PRODUCTS OUTSIDE BUILDINGS (2/3)

### Under section 1 add:

Product(s)	Intended use(s)	Level(s) or class(es) (Reaction to fire)	Attestation of conformity system(s)
Prefabricated drainage channel	for uses subject to regulations on reaction to fire	A1*, A2*, B*, C* A1**, A2**, B**, C**, D, E (A1 to E)***, F	1  3 4

System 1: See CPD Annex III.2.(i), without audit-testing of samples

System 3: See CPD Annex III.2.(ii), Second possibility

System 4: See CPD Annex III. 2.(ii), Third possibility

<sup>\*</sup> Products/ materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (e.g. an addition of fire retardants or a limiting of organic material)

<sup>\*\*</sup> Products/ materials not covered by footnote (\*).

<sup>\*\*\*</sup> Products/ materials that do not require to be tested for reaction to fire (e.g. Products/materials of class A1 according to the Decision 96/603/EC, as amended).

System 3: See CPD Annex III.2.(ii), Second possibility

System 4: See CPD Annex III. 2.(ii), Third possibility

<sup>\*</sup> Products/ materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (e.g. an addition of fire retardants or a limiting of organic material)

<sup>\*\*</sup> Products/ materials not covered by footnote (\*).

<sup>\*\*\*</sup> Products/ materials that do not require to be tested for reaction to fire (e.g. Products/materials of class A1 according to the Decision 96/603/EC, as amended).

### Under section 1 add:

Product(s)	Intended use(s)	Level(s) or class(es) (Reaction to fire)	Attestation of conformity system(s)
Manholes and inspection chambers.  Covers, step irons, ladders and handrail for manholes and inspection chambers, gully tops.  Separators	for uses subject to regulations on reaction to fire	A1*, A2*, B*, C*	1  3 4

System 1: See CPD Annex III.2.(i), without audit-testing of samples

System 3: See CPD Annex III.2.(ii), Second possibility

System 4: See CPD Annex III. 2.(ii), Third possibility

<sup>\*</sup> Products/ materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (e.g. an addition of fire retardants or a limiting of organic material)

<sup>\*\*</sup> Products/ materials not covered by footnote (\*).

<sup>\*\*\*</sup> Products/ materials that do not require to be tested for reaction to fire (e.g. Products/materials of class A1 according to the Decision 96/603/EC, as amended).
