Re: Freedom of Information Act Request 2009-52

We have received your FOIA request to the Federal Election Commission ("FEC" or "Commission") dated May 20, 2009 and received by the Commission's FOIA Office on May 26, 2009. Your request specifically asked for the following:

"Any contracts, memoranda, or budgetary materials detailing the specific agreements and amount of money spent by the Federal Election Commission with commercial legal information providers such as Thomson WestLaw or the ReedElsiveir LexisNexis service."

In accordance with Executive Order 12600 Sec. 9, the vendors whose documents were in the FEC's possession, and were responsive to this request, have been notified of the request, and have been given an opportunity to comment. The vendors will also be notified of the Commission's decision to disclose the enclosed documents with redactions.

Enclosed please find certain records that constitute a response to your request. We have redacted information that sheds light upon, or is related to, the internal practices of the Commission and that is trivial in nature, or the release of which may significantly risk circumvention of regulation or statute, and therefore is exempt under FOIA Exemption 2. 5 U.S.C. § 552(b)(2). We have also redacted portions of records that would disclose taxpayer identification numbers and thus are prohibited from disclosure under the 26 U.S.C. § 6103, and consequently are exempt under FOIA Exemption 3(A). 5 U.S.C. § 552(b)(3)(A). We have also redacted confidential commercial records as they are exempt under FOIA Exemption 4. 5 U.S.C. § 552(b)(4). Finally, we have redacted information which, if disclosed, could potentially result in an invasion of an individual's personal privacy, and therefore is exempt under FOIA Exemption 6. 5 U.S.C. § 552(b)(6).

You have the right to appeal any adverse FOIA determination to the Commission under 11 CFR § 4.8. If you have any questions, please contact the FOIA Service Center at FOIA@fec.gov, or (202) 694-1650. Thank you for contacting the FEC.

Sincerely,

A. Clearance Requirements for Contractor Personnel:

1) Authority: Because Contractor personnel may have access under this contract to sensitive agency data and computer equipment subject to strict security controls, and/or may have access to a Federal facility/building, the clearance procedures set forth in this section are necessary and shall be used to determine the suitability of such individuals for such purposes, under the following authorities: NIST Publication SP 800-4 (1992) (Computer Security Considerations in Federal Procurements); the Privacy Act, 5 U.S.C. 552a, which requires agencies to establish procedures and safeguards to protect agency systems of records pertaining to individual; and Office of Personnel Management (OPM) regulations, relating to background investigations of contractor personnel, 5 C.F.R. Part 736. Contractor badging occurs every Wednesday. Contractor employees may begin work on any day of the week, as directed by the COTR, but will not have access to information technology (e.g., username and password) until processed through the Security Office and applicable FEC IT requirements have been met.

2) Applicability: The procedures in this section shall apply to all individuals fulfilling any of the requirements set forth in this contract.

B. Procedures: If the contract requires the contractor and/or any subcontractor to be onsite at the headquarters FEC location or one of its contingent locations for a period of thirty-days or more the contractor will follow the procedures outlined within the following guidance unless as determined by the FEC Human Resource's Office they can be exempted. The COTR shall provide each such individual with a copy of the procedures set in this section before or at the time that such individual applies for clearance.

1) Fingerprinting and Forms submission: Each individual employed or otherwise retained by the Contractor to perform work under this contract shall be fingerprinted at the FEC's Human Resources Office, and shall also submit to the Contracting Officer's Technical Representative ("COTR") one completed Optional Form ("OF") 306 ("Declaration for Federal Employment," answer Questions 1,7-12, 15, and 16a only). The Contractor shall be responsible for all costs associated with completing the forms required by the FEC's Human Resources Office. Completed forms shall be submitted to the COTR, without alteration or changes to said forms, at least 10 working days before the individual may begin work or be given access to any agency records, data, or information in connection with this contract. Contractor processing occurs on Wednesdays only. Contractor employees may begin work on days other than Wednesdays but will not be issued contractor badges nor will be granted unlimited access to FEC facilities and systems.

2) Additional Forms: In addition to the above forms, individuals employed or retained by the Contractor to fulfill contract positions or duties for 180 days or more, and any individual designated to fulfill certain sensitive contract positions or duties as determined by the FEC's Human Resources Office, shall be required to submit to the COTR, one SF85 or SF85P (and any additional investigative forms) based on a risk determination by the FEC Human Resources Office that shall take into account the sensitivity level of the contract position or duties assigned to the individual, the individual's access, if any, to nonpublic or confidential information, and any other relevant considerations. The individual must submit these additional forms to the COTR at least 5 working days before such individual is scheduled to start work or to obtain access to agency records, data, or information under the contract.

3) Background investigations: The FEC Human Resources Office shall screen all forms for any adverse or derogatory information, as denoted, for example, by a "yes" to questions 8-12, by additional information in Block 15 on the OF306, or by information on any additional forms that may be required, as discussed above. If the individual has any adverse or derogatory information, the FEC shall conduct a background investigation before s/he is permitted to begin work or be given access to agency records, data, or information under this contract. The background investigation may be conducted in cooperation with or with the assistance of other relevant government agencies or entities, including, but not limited to, OPM, including referral to appropriate law enforcement authorities in the event of material falsification or other evidence of unlawful conduct. To the extent agency records pertaining to these background investigations are subject to the Privacy Act, such records shall be maintained and used in accordance with the applicable Privacy Act system notice(s) pertaining to the agency's personnel background investigations. (Note: Neither the maintenance of such records in the above-described system(s), nor the fact that this contract requires individuals to complete certain forms or submit to background investigations that may also apply to FEC employees, shall be deemed to render such an individual a Government or FEC employee in any manner).

If, as a result of a background investigation, significant adverse or derogatory information is found that may result in a unsuitability determination, the FEC Human Resources Office shall notify the COTR and the relevant individual. The individual will be notified in writing (Statement of Reasons) of the derogatory information and shall have 30 days to respond or dispute the results of the investigation. If the FEC Human Resources Office, after receiving the individual's response, still determines that the individual is unsuitable to fulfill the contract position or duties in question, the individual will be notified in writing of that final determination and disqualification.

4) Suitability Determinations: The Government shall have and exercise full and complete control over these suitability determinations. The Government may, as it deems appropriate, authorize and grant temporary access and/or interim clearance to employees of the Contractor. However, the granting of temporary access and/or interim clearance to any such individual shall not be

considered as assurance that a fully favorable suitability determination will follow as a result or condition thereof, and the granting of either temporary access and/or interim clearance shall in no way prevent, preclude or bar the withdrawal or termination of any such access or clearance by the Government. Failure of an individual to follow the required procedures by this contract may result in suspension/termination of such individual's FEC clearance/access.

C. RESERVED

D. Handling of third-party requests for access to records. In the event that the Contractor receives any subpoena or other voluntary or mandatory request for access to data first produced under this Contract, the Contractor shall immediately notify the COTR and the CO, so that the Government may intervene or take any other steps it deems necessary to protect its interests.

E. Data Breaches. The contractor shall comply with all contractual and Federal information security, privacy and confidentiality requirements applicable to the operation, maintenance or support of a Federal information system this includes FEC internal IT security policies, the contractor shall be required to prevent and remedy data breaches and to provide the FEC with all necessary information and cooperation, and to take all other reasonable and necessary steps and precautions, to enable the FEC to satisfy its data breach reporting duties under applicable law, regulation, or policy in the event, if any, that a breach occurs. Special attention should be paid to OMB Memorandum 06-19 (July 12, 2006), particularly the extremely urgent reporting time frames included therein for certain breaches, as well as to any other subsequent laws, regulations, or policy governing data breaches that may arise during the performance of the contract.

16. ORGANIZATIONAL CONFLICTS OF INTEREST (OCI): If the contractor is aware, or becomes aware during the period of performance of this contract, of any facts that might create an actual or potential conflict of interest, the contractor shall immediately provide a detailed disclosure of such facts to the COTR and the Contracting Officer. At the request of the COTR or the Contracting Officer, the contractor shall provide a conflict of interest avoidance or mitigation plan to the COTR and the Contracting Officer. If such a plan is requested, continued performance under this contract may be conditional upon the Contracting Officer's approval of the plan. If approved by the Contracting Officer, the conflict of interest avoidance or mitigation plan shall be deemed incorporated into this contract, pursuant to this provision. This provision shall be included in any teaming or subcontract agreements with respect to work performed under this contract.

17. ACCESS TO DATA: The contractor shall have access to the information and individuals necessary to conduct the work outlined within the contract agreement. Should the contractor encounter excessive delays in getting access to data, the circumstances should be brought to the attention of the COTR for immediate resolution. As a minimum, delays of four business days or more past the promised delivery time or unreasonable promised delivery times may be considered excessive for purposes of notifying the COTR.

18. TECHNICAL DIRECTION AND SURVEILLANCE

A. Performance of work under this contract shall be subject to the surveillance and written technical direction of the COTR and Contracting Officer. The term "technical direction" is defined to include:

Technical direction must be within the scope of work. The COTR does not have authority to, and may not, issue any technical direction which:

- 1) Assigns additional work outside the Statement of Work for the order;
- 2) Constitutes a change as defined in the contract clause entitled "Changes";
- 3) In any manner causes an increase or decrease in the order price or the time required for performance;
- 4) Changes any of the expressed terms, conditions or specifications of the contract; or
- 5) Interferes with the contractor's right to perform the terms and conditions of the contract.

B. All technical direction (within the scope of the contract) shall be issued in writing by the COTR or the CO in the absence of the COTR. The contractor shall proceed promptly with the performance of technical directions duly issued by the COTR in the manner prescribed in this clause and within his/her authority under the provisions of this clause.

LEXISNEXIS SMARTLINX™

SmartLinx™ is a powerful investigative/research solution used by government agencies, law enforcement officials, Special Investigative Units (SIUs) and insurance risk managers to sift through billions of public records to establish links between related entities. The answer is delivered in one comprehensive summary report.

Entities such as a person, company, or organization's name, a license or registration number, an address, zip code, or telephone numbers are linked to other public records where that entity appears. Sophisticated software applications analyze each record to determine that these linked entities, regardless of possible spelling, formatting, or other variations are actually the same.

The SmartLinx™ solution fully complies with the non-public information provisions of the Gramm Leach Bliley Act that went into effect July 1, 2001. It also complies with all other applicable laws, including the Federal Driver's Privacy Protection Act, and principles respecting privacy and the responsible use of public records by which LexisNexis abides.

SmartLinx™ contains information from over 1,400 sources of public records information including:

- 1 County tax-assessor, real-property records and deed transfers;

- 2 Property finance information, including mortgage filings;
- 3 Secretary of State corporation and limited partnership records;
- 4 Limited liability corporation information;
- 5 DBA/fictitious business names;
- 6 UCC filings, judgments and liens;
- 7 Bankruptcy filings;
- 8 Business credit reports and company profiles;

2) Applicability: The procedures in this section shall apply to all individuals fulfilling any of the requirements set forth in this contract.

B. Procedures: If the contract requires the contractor and/or any subcontractor to be onsite at the headquarters FEC location or one of its contingent locations for a period of thirty-days or more the contractor will follow the procedures outlined within the following guidance unless as determined by the FEC Human Resource's Office they can be exempted. The COTR shall provide each such individual with a copy of the procedures set in this section before or at the time that such individual applies for clearance.

1) Fingerprinting and Forms submission: Each individual employed or otherwise retained by the Contractor to perform work under this contract shall be fingerprinted at the FEC's Human Resources Office, and shall also submit to the Contracting Officer's Technical Representative ("COTR") one completed Optional Form ("OF") 306 ("Declaration for Federal Employment," answer Questions 1,7-12, 15, and 16a only). The Contractor shall be responsible for all costs associated with completing the forms required by the FEC's Human Resources Office. Completed forms shall be submitted to the COTR, without alteration or changes to said forms, at least 10 working days before the individual may begin work or be given access to any agency records, data, or information in connection with this contract. Contractor processing occurs on Wednesdays only. Contractor employees may begin work on days other than Wednesdays but will not be issued contractor badges nor will be granted unlimited access to FEC facilities and systems.

2) Additional Forms: In addition to the above forms, individuals employed or retained by the Contractor to fulfill contract positions or duties for 180 days or more, and any individual designated to fulfill certain sensitive contract positions or duties as determined by the FEC's Human Resources Office, shall be required to submit to the COTR, one SF85 or SF85P (and any additional investigative forms) based on a risk determination by the FEC Human Resources Office that shall take into account the sensitivity level of the contract position or duties assigned to the individual, the individual's access, if any, to nonpublic or confidential information, and any other relevant considerations. The individual must submit these additional forms to the COTR at least 5 working days before such individual is scheduled to start work or to obtain access to agency records, data, or information under the contract.

3) Background investigations: The FEC Human Resources Office shall screen all forms for any adverse or derogatory information, as denoted, for example, by a "yes" to questions 8-12, by additional information in Block 15 on the OF306, or by information on any additional forms that may be required, as discussed above. If the individual has any adverse or derogatory information, the FEC shall conduct a background investigation before s/he is permitted to begin work or be given access to agency records, data, or information under this contract. The background investigation may be conducted in cooperation with or with the assistance of other relevant government agencies or entities, including, but not limited to, OPM, including referral to appropriate law enforcement authorities in the event of material falsification or other evidence of unlawful conduct. To the extent agency records pertaining to these background investigations are subject to the Privacy Act, such records shall be maintained and used in accordance with the applicable Privacy Act system notice(s) pertaining to the agency's personnel background investigations. (Note: Neither the maintenance of such records in the above-described system(s), nor the fact that this contract requires individuals to complete certain forms or submit to background investigations that may also apply to FEC employees, shall be deemed to render such an individual a Government or FEC employee in any manner).

If, as a result of a background investigation, significant adverse or derogatory information is found that may result in a unsuitability determination, the FEC Human Resources Office shall notify the COTR and the relevant individual. The individual will be notified in writing (Statement of Reasons) of the derogatory information and shall have 30 days to respond or dispute the results of the investigation. If the FEC Human Resources Office, after receiving the individual's response, still determines that the individual is unsuitable to fulfill the contract position or duties in question, the individual will be notified in writing of that final determination and disqualification.

4) Suitability Determinations: The Government shall have and exercise full and complete control over these suitability determinations. The Government may, as it deems appropriate, authorize and grant temporary access and/or interim clearance to employees of the Contractor. However,

the granting of temporary access and/or interim clearance to any such individual shall not be considered as assurance that a fully favorable suitability determination will follow as a result or condition thereof, and the granting of either temporary access and/or interim clearance shall in no way prevent, preclude or bar the withdrawal or termination of any such access or clearance by the Government. Failure of an individual to follow the required procedures by this contract may result in suspension/termination of such individual's FEC clearance/access.

C. RESERVED

D. Handling of third-party requests for access to records. In the event that the Contractor receives any subpoena or other voluntary or mandatory request for access to data first produced under this Contract, the Contractor shall immediately notify the COTR and the CO, so that the Government may intervene or take any other steps it deems necessary to protect its interests.

E. Data Breaches. The contractor shall comply with all contractual and Federal information security, privacy and confidentiality requirements applicable to the operation, maintenance or support of a Federal information system this includes FEC internal IT security policies, the contractor shall be required to prevent and remedy data breaches and to provide the FEC with all necessary information and cooperation, and to take all other reasonable and necessary steps and precautions, to enable the FEC to satisfy its data breach reporting duties under applicable law, regulation, or policy in the event, if any, that a breach occurs. Special attention should be paid to OMB Memorandum 06-19 (July 12, 2006), particularly the extremely urgent reporting time frames included therein for certain breaches, as well as to any other subsequent laws, regulations, or policy governing data breaches that may arise during the performance of the contract.

16. ORGANIZATIONAL CONFLICTS OF INTEREST (OCI): If the contractor is aware, or becomes aware during the period of performance of this contract, of any facts that might create an actual or potential conflict of interest, the contractor shall immediately provide a detailed disclosure of such facts to the COTR and the Contracting Officer. At the request of the COTR or the Contracting Officer, the contractor shall provide a conflict of interest avoidance or mitigation plan to the COTR and the Contracting Officer. If such a plan is requested, continued performance under this contract may be conditional upon the Contracting Officer's approval of the plan. If approved by the Contracting Officer, the conflict of interest avoidance or mitigation plan shall be deemed incorporated into this contract, pursuant to this provision. This provision shall be included in any teaming or subcontract agreements with respect to work performed under this contract.

17. ACCESS TO DATA: The contractor shall have access to the information and individuals necessary to conduct the work outlined within the contract agreement. Should the contractor encounter excessive delays in getting access to data, the circumstances should be brought to the attention of the COTR for immediate resolution. As a minimum, delays of four business days or more past the promised delivery time or unreasonable promised delivery times may be considered excessive for purposes of notifying the COTR.

18. TECHNICAL DIRECTION AND SURVEILLANCE

A. Performance of work under this contract shall be subject to the surveillance and written technical direction of the COTR and Contracting Officer. The term "technical direction" is defined to include:

Technical direction must be within the scope of work. The COTR does not have authority to, and may not, issue any technical direction which:

- 1) Assigns additional work outside the Statement of Work for the order;
- 2) Constitutes a change as defined in the contract clause entitled "Changes";
- 3) In any manner causes an increase or decrease in the order price or the time required for performance;
- 4) Changes any of the expressed terms, conditions or specifications of the contract; or
- 5) Interferes with the contractor's right to perform the terms and conditions of the contract.

B. All technical direction (within the scope of the contract) shall be issued in writing by the COTR or the CO in the absence of the COTR. The contractor shall proceed promptly with the performance of technical directions duly issued by the COTR in the manner prescribed in this clause and within his/her authority under the provisions of this clause.

1) If, in the opinion of the contractor, any instruction or direction by the COTR would increase the cost of the contract or result in work outside the scope of this contract, the contractor shall not proceed but shall immediately notify the Contracting Officer in writing with a request for modification or equitable adjustment. It is anticipated that within 30 days of receiving the notification from the contractor, the Contracting Officer will either issue an appropriate contract modification or advise the contractor in writing of what actions need to occur.

2) A failure of the contractor and Contracting Officer to agree that the technical direction is within the scope of the contract, or a failure to agree upon the contract action to be taken with respect thereto shall be subject to the provisions of the "Disputes" clause of the contract.

19. KEY PERSONNEL (As required by the SOW and agreement)

A. Key Personnel: The key personnel for this contract are those individuals proposed and accepted by the Contracting Officer as part of the contract proposal process. The FEC reserves the right to review employees' resumes and qualifications prior to acceptance of individuals proposed for individual contract assignments or the request for new or replacement personnel.

1) The contractor shall provide written notification of any substitution of key personnel to the COTR and Contracting Officer for approval at least 15 calendar days prior to changes in key personnel assigned to this contract. The contractor shall supply written justification as part of this notice as to the circumstances necessitating the proposed replacement of these key personnel and shall provide the names(s) and resume(s) of the proposed replacements and their training profiles. Substituted personnel shall have at least equal or better qualifications as the initial personnel.

2) If, during performance of this contract, the contractor proposes to add additional personnel to the effort, a written request, with resumes, shall be submitted to the COTR and Contracting Officer for approval and acceptance of the proposed personnel. All approvals will be in writing from the Contracting Officer.

3) Upon receiving written or verbal notice from the Contracting Officer that the employee's performance is unsatisfactory, the contractor shall immediately remove any employee from performance of work under this contract, and shall expeditiously replace that employee via replacement procedures. At no time during the performance of this contract shall a substitution cause any increase in the firm-fixed price of the contract.

20. Task Order Limitations "Optional Services" (As required by the SOW and agreement)

A. Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$3,000, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

B. Maximum order. No Maximum Order limitation.

C. The Contractor shall honor any order unless that order (or orders) is returned to the ordering office within 5 work days after issuance, with written notice stating the Contractor's intent not to perform services as stated within the order and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source. The Contractor file may be noted for "non-performance" and that data may be used when evaluating the issuance of future orders.

D. Only the Contracting Officer can issue a task order for "Optional Services" under the Schedule.

1. Central Contractor Registration (CCR): As part of doing business with the Federal government, it is mandatory that vendors/contractors providing supplies or services to the Federal government register and maintain an active account for their business in the Central Contractor Registration (CCR) database - <http://www.bpn.gov>. CCR validates the registrant information and electronically shares the secure encrypted data with federal agencies' finance offices to facilitate payments through electronic funds transfer (EFT).
2. Release of Information: No FEC data shall be divulged to any unauthorized person for any purpose. The contractor shall clear with the Contracting Officer (CO) any public release of information on this contract/order, to include news stories, articles, sales literature, advertisements, radio-TV spots, etc. Any request for public release of information should be addressed to:

Federal Election Commission
Office of the CFO
Director of Procurement #819-H

3. Handling of third-party requests for access to records: In the event that the Contractor receives a subpoena or any other request for access to data first produced under this contract, the Contractor shall immediately notify the Contracting Officer Technical Representative (COTR) and the CO, so that the Government may intervene or take action it deems necessary to protect its interests.

4. NON-DISCLOSURE OF CONFIDENTIAL DATA STATEMENT: As Required in writing by either the Contracting Officer or COTR - Within two weeks of receipt of notice of award, the contractor shall provide a signed copy of the FEC Non-Disclosure Agreement (See Attachment) for all personnel involved in the engagement. Approved replacement personnel shall provide a completed agreement when assigned to this contract. No access will be given until the Non-Disclosure Agreements are provided to the Contracting Officer with a copy to the COTR.

5. COTR. The contractor may only accept technical direction during the period of performance from the COTR, providing such direction is within the scope of the contract/order.

A. The COTR is not authorized to change the scope of work as stated in the contract/order or obligate the Government (FEC) in any way. The CO is the only agent for the FEC who has the authority to obligate the FEC or change the contract/order terms and conditions. 14. CONTRACTOR FURNISHED: The contractor shall provide ALL items/labor/services not furnished by FEC in paragraph #13 and as associated with full performance of the advertised FEC need.

ADDITIONAL SECURITY REQUIREMENTS
(On-Site and Off-Site (as required))

15. SECURITY REQUIREMENTS: All contractor personnel working on FEC premises shall adhere to FEC security requirements. Presently, contractor personnel are required to wear identification badges while on-site. The contractor is responsible for assuring that ID badges, access cards, and any other Government-owned property, are promptly returned to the FEC at the conclusion of the employee's work at

the site, and shall be returned at any other time upon request of the FEC. All FEC furnished materials must be stored securely at all times. Secure storage facilities will be provided at 999 E Street NW Washington, DC 20463.

A. Clearance Requirements for Contractor Personnel:

1) Authority: Because Contractor personnel may have access under this contract to sensitive agency data and computer equipment subject to strict security controls, and/or may have access to a Federal facility/building, the clearance procedures set forth in this section are necessary and shall be used to determine the suitability of such individuals for such purposes, under the following authorities: NIST Publication SP 800-4 (1992) (Computer Security Considerations in Federal Procurements); the Privacy Act, 5 U.S.C. 552a, which requires agencies to establish procedures and safeguards to protect agency systems of records pertaining to individual; and Office of Personnel Management (OPM) regulations, relating to background investigations of contractor personnel, 5 C.F.R. Part 736. Contractor badging occurs every Wednesday. Contractor employees may begin work on any day of the week, as directed by the COTR, but will not have access to information technology (e.g., username and password) until processed through the Security Office and applicable FEC IT requirements have been met.

2) Applicability: The procedures in this section shall apply to all individuals fulfilling any of the requirements set forth in this contract.

B. Procedures: If the contract requires the contractor and/or any subcontractor to be onsite at the headquarters FEC location or one of its contingent locations for a period of thirty-days or more the contractor will follow the procedures outlined within the following guidance unless as determined by the FEC Human Resource's Office they can be exempted. The COTR shall provide each such individual with a copy of the procedures set in this section before or at the time that such individual applies for clearance.

1) Fingerprinting and Forms submission: Each individual employed or otherwise retained by the Contractor to perform work under this contract shall be fingerprinted at the FEC's Human Resources Office, and shall also submit to the Contracting Officer's Technical Representative ("COTR") one completed Optional Form ("OF") 306 ("Declaration for Federal Employment," answer Questions 1,7-12, 15, and 16a only). The Contractor shall be responsible for all costs associated with completing the forms required by the FEC's Human Resources Office. Completed forms shall be submitted to the COTR, without alteration or changes to said forms, at least 10 working days before the individual may begin work or be given access to any agency records, data, or information in connection with this contract. Contractor processing occurs on Wednesdays only. Contractor employees may begin work on days other than Wednesdays but will not be issued contractor badges nor will be granted unlimited access to FEC facilities and systems.

2) Additional Forms: In addition to the above forms, individuals employed or retained by the Contractor to fulfill contract positions or duties for 180 days or more, and any individual designated to fulfill certain sensitive contract positions or duties as determined by the FEC's Human Resources Office, shall be required to submit to the COTR, one SF85 or SF85P (and any additional investigative forms) based on a risk determination by the FEC Human Resources Office that shall take into account the sensitivity level of the contract position or duties assigned to the individual, the individual's access, if any, to nonpublic or confidential information, and any other relevant considerations. The individual must submit these additional forms to the COTR at least 5 working days before such individual is scheduled to start work or to obtain access to agency records, data, or information under the contract.

3) Background investigations: The FEC Human Resources Office shall screen all forms for any adverse or derogatory information, as denoted, for example, by a "yes" to questions 8-12, by additional information in Block 15 on the OF306, or by information on any additional forms that may be required, as discussed above. If the individual has any adverse or derogatory information, the FEC shall conduct a background investigation before s/he is permitted to begin work or be given access to agency records, data, or information under this contract. The background investigation may be conducted in cooperation with or with the assistance of other relevant government agencies or entities, including, but not limited to, OPM, including referral to appropriate law enforcement authorities in the event of material falsification or other evidence of unlawful conduct. To the extent agency records pertaining to these background investigations are subject to the Privacy Act, such records shall be maintained and used in accordance with the applicable Privacy Act system notice(s) pertaining to the agency's personnel background investigations. (Note: Neither the maintenance of such records in the above-described system(s), nor the fact that this contract requires individuals to complete certain forms or submit to background investigations that may also apply to FEC employees, shall be deemed to render such an individual a Government or FEC employee in any manner).

If, as a result of a background investigation, significant adverse or derogatory information is found that may result in a unsuitability determination, the FEC Human Resources Office shall notify the COTR and the relevant individual. The individual will be notified in writing (Statement of Reasons) of the derogatory information and shall have 30 days to respond or dispute the results of the investigation. If the FEC Human Resources Office, after receiving the individual's response, still determines that the individual is unsuitable to fulfill the contract position or duties in question, the individual will be notified in writing of that final determination and disqualification.

4) Suitability Determinations: The Government shall have and exercise full and complete control over these suitability determinations. The Government may, as it deems appropriate, authorize and grant temporary access and/or interim clearance to employees of the Contractor. However,

the granting of temporary access and/or interim clearance to any such individual shall not be considered as assurance that a fully favorable suitability determination will follow as a result or condition thereof, and the granting of either temporary access and/or interim clearance shall in no way prevent, preclude or bar the withdrawal or termination of any such access or clearance by the Government. Failure of an individual to follow the required procedures by this contract may result in suspension/termination of such individual's FEC clearance/access.

C. RESERVED

D. Handling of third-party requests for access to records. In the event that the Contractor receives any subpoena or other voluntary or mandatory request for access to data first produced under this Contract, the Contractor shall immediately notify the COTR and the CO, so that the Government may intervene or take any other steps it deems necessary to protect its interests.

E. Data Breaches. The contractor shall comply with all contractual and Federal information security, privacy and confidentiality requirements applicable to the operation, maintenance or support of a Federal information system this includes FEC internal IT security policies, the contractor shall be required to prevent and remedy data breaches and to provide the FEC with all necessary information and cooperation, and to take all other reasonable and necessary steps and precautions, to enable the FEC to satisfy its data breach reporting duties under applicable law, regulation, or policy in the event, if any, that a breach occurs. Special attention should be paid to OMB Memorandum 06-19 (July 12, 2006), particularly the extremely urgent reporting time frames included therein for certain breaches, as well as to any other subsequent laws, regulations, or policy governing data breaches that may arise during the performance of the contract.

16. ORGANIZATIONAL CONFLICTS OF INTEREST (OCI): If the contractor is aware, or becomes aware during the period of performance of this contract, of any facts that might create an actual or potential conflict of interest, the contractor shall immediately provide a detailed disclosure of such facts to the COTR and the Contracting Officer. At the request of the COTR or the Contracting Officer, the contractor shall provide a conflict of interest avoidance or mitigation plan to the COTR and the Contracting Officer. If such a plan is requested, continued performance under this contract may be conditional upon the Contracting Officer's approval of the plan. If approved by the Contracting Officer, the conflict of interest avoidance or mitigation plan shall be deemed incorporated into this contract, pursuant to this provision. This provision shall be included in any teaming or subcontract agreements with respect to work performed under this contract.

17. ACCESS TO DATA: The contractor shall have access to the information and individuals necessary to conduct the work outlined within the contract agreement. Should the contractor encounter excessive delays in getting access to data, the circumstances should be brought to the attention of the COTR for immediate resolution. As a minimum, delays of four business days or more past the promised delivery time or unreasonable promised delivery times may be considered excessive for purposes of notifying the COTR.

18. TECHNICAL DIRECTION AND SURVEILLANCE

A. Performance of work under this contract shall be subject to the surveillance and written technical direction of the COTR and Contracting Officer. The term "technical direction" is defined to include:

Technical direction must be within the scope of work. The COTR does not have authority to, and may not, issue any technical direction which:

- 1) Assigns additional work outside the Statement of Work for the order;
- 2) Constitutes a change as defined in the contract clause entitled "Changes";
- 3) In any manner causes an increase or decrease in the order price or the time required for performance;
- 4) Changes any of the expressed terms, conditions or specifications of the contract; or
- 5) Interferes with the contractor's right to perform the terms and conditions of the contract.

B. All technical direction (within the scope of the contract) shall be issued in writing by the COTR or the CO in the absence of the COTR. The contractor shall proceed promptly with the performance of technical directions duly issued by the COTR in the manner prescribed in this clause and within his/her authority under the provisions of this clause.

1) If, in the opinion of the contractor, any instruction or direction by the COTR would increase the cost of the contract or result in work outside the scope of this contract, the contractor shall not proceed but shall immediately notify the Contracting Officer in writing with a request for modification or equitable adjustment. It is anticipated that within 30 days of receiving the notification from the contractor, the Contracting Officer will either issue an appropriate contract modification or advise the contractor in writing of what actions need to occur.

2) A failure of the contractor and Contracting Officer to agree that the technical direction is within the scope of the contract, or a failure to agree upon the contract action to be taken with respect thereto shall be subject to the provisions of the "Disputes" clause of the contract.

19. KEY PERSONNEL (As required by the SOW and agreement)

A. Key Personnel: The key personnel for this contract are those individuals proposed and accepted by the Contracting Officer as part of the contract proposal process. The FEC reserves the right to review employees' resumes and qualifications prior to acceptance of individuals proposed for individual contract assignments or the request for new or replacement personnel.

1) The contractor shall provide written notification of any substitution of key personnel to the COTR and Contracting Officer for approval at least 15 calendar days prior to changes in key personnel assigned to this contract. The contractor shall supply written justification as part of this notice as to the circumstances necessitating the proposed replacement of these key personnel and shall provide the names(s) and resume(s) of the proposed replacements and their training profiles. Substituted personnel shall have at least equal or better qualifications as the initial personnel.

All approvals will be in writing from the Contracting Officer.

3) Upon receiving written or verbal notice from the Contracting Officer that the employee's performance is unsatisfactory, the contractor shall immediately remove any employee from performance of work under this contract, and shall expeditiously replace that employee via replacement procedures. At no time during the performance of this contract shall a substitution cause any increase in the firm-fixed price of the contract.

20. Task Order Limitations "Optional Services" (As required by the SOW and agreement)

A. Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$3,000, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

B. Maximum order. No Maximum Order limitation.

C. The Contractor shall honor any order unless that order (or orders) is returned to the ordering office within 5 work days after issuance, with written notice stating the Contractor's intent not to perform services as stated within the order and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source. The Contractor file may be noted for "non-performance" and that data may be used when evaluating the issuance of future orders.

Re: Westlaw Fixed-Rate Price for FY09 - Federal Election Commission (1000418160)

34,159.70

Once again, it is time to renew your Westlaw fixed-rate contract. It is our understanding that you intend to remain under this same Non-FEDLINK structure for FY10. The new fixed rate will be:

Current FY09 Fixed-Rate: (b) (4)
Average Included Charges at Fedlink Rates: (b) (4)
Resulting 9 Month Average Discount: (b) (4)
9 Month Average Agency Savings: (b) (4) per month
Number of Times Value Exceeded Fixed-Rate: 2.11

FY10 Fixed-Rate Fee: (b) (4)
Annual Fixed Rate Amount: \$ 382,311.60
Ancillary Funding : \$ 10,000.00 annually

Option years, at ^{(b) (4)}% year over year, have been established for the Federal Election Commission for FY11, FY12 and FY13.

West recommends the following add-ons to your contract for the listed additional charge:

PeopleMap

\$ (b) (4) per month*

X12

Under the plan, there is no charge to add new users to any existing location. New locations may be added for \$115 per password, per month. Contractually each user is required to have an individual password.

Attached for your records is

- At list of "included" and "excluded" databases under your FY09 fixed rate plan
- Westlaw Usage & Payments for the period October 2008 - April 2009
- West Electronic Information Accessibility see: <http://west.thomson.com/accessibility/>

Print Discount - Terms and Conditions

During the term of the contract, the agency will receive a (b) (4) discount from the ongoing subscription update charges for the agency's West print product subscriptions previously selected by the agency, provided that the agency maintains the Westlaw pricing under the terms set forth herein. During the term of the contract, the agency agrees not to terminate its subscriptions to the selected West print products. In the event the agency cancels Westlaw or any of the selected West print products during the term of the contract, the agency will be billed thereafter for all the selected West print products at then-current rates during that fiscal year.

Please contact me with any questions. I can be reached by telephone, at (b) (6) or by e-mail at (b) (6)

Sincerely,

Scott Garten, Esq.

*** If you choose to contract through GSA or Fedlink a .75% industrial funding fee must be added to the price of the fixed-rate. This money will be remitted to GSA or Fedlink on a quarterly basis.*

LEXISNEXIS SMARTLINX™

SmartLinx™ is a powerful investigative/research solution used by government agencies, law enforcement officials, Special Investigative Units (SIUs) and insurance risk managers to sift through billions of public records to establish links between related entities. The answer is delivered in one comprehensive summary report.

Entities such as a person, company, or organization's name, a license or registration number, an address, zip code, or telephone numbers are linked to other public records where that entity appears. Sophisticated software applications analyze each record to determine that these linked entities, regardless of possible spelling, formatting, or other variations are actually the same.

The SmartLinx™ solution fully complies with the non-public information provisions of the Gramm Leach Bliley Act that went into effect July 1, 2001. It also complies with all other applicable laws, including the Federal Driver's Privacy Protection Act, and principles respecting privacy and the responsible use of public records by which LexisNexis abides.

SmartLinx™ contains information from over 1,400 sources of public records information including:

- 1 County tax-assessor, real-property records and deed transfers;

- 2 Property finance information, including mortgage filings;
- 3 Secretary of State corporation and limited partnership records;
- 4 Limited liability corporation information;
- 5 DBA/fictitious business names;
- 6 UCC filings, judgments and liens;
- 7 Bankruptcy filings;
- 8 Business credit reports and company profiles;
- 9 Person- and business-locator information including driver's license, motor vehicle registrations, white-pages and U.S. census information and voting registration indices.
