

It is the right of every person subject to law to be aware of the contents of that law. There cannot be a cost associated with this (where possible) if the law is to be applied evenly.

--

Tim Cadell

"Science is the best thing that humankind ever came up with. And if it isn't, science will fix it."

- Bill Nye

"Contrary to what you've heard, the oldest profession is teaching. ... And if you don't teach them to read, you can fool them whenever you like!"

- Max Headroom
