Ms. Bunk, Ms. Vincent --

Just yesterday, Boeing Commercial Airplanes found the "Announcement of a petition for rulemaking and request for comments" -- related to "Incorporation by Reference" -- that was published in the Federal Register on February 27, 2012 (77 FR 11414). After reviewing the document, we find that we may have significant comments to submit, but we realize the comment deadline is today. In light of this, we respectfully request that we be permitted to submit late comments. An additional 2 weeks (by April 11, 2012) would permit us to conduct a more in-depth review of the document and provide a more meaningful, thorough set of comments.

We look forward to a positive response to this request so that we can support this process more effectively.

Thank you very much for your consideration of our request.
