

# ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

[1 CFR Ch. I]

## REGULATIONS AFFECTING FEDERAL REGISTER, AND SPECIAL EDITIONS THEREOF

### Notice of Proposed Rule Making

The Administrative Committee of the Federal Register is considering a complete revision of its regulations. The proposed revision contains several significant substantive changes as well as a complete restatement and reorganization of the present regulations.

The organization of the regulations in the proposed revision would be such that those regulations of most interest to the general public would be stated first, followed by the regulations primarily directed to Federal agencies. In the revision an effort has been made to state each regulation in clear simple terms. A number of provisions have been dropped as unnecessary or surplus. To assist reviewers, each section in the proposed revision is followed by a bracketed indication of the source for the requirements of that section. Thus for example proposed § 2.0 is based on present § 1.0. In addition, a complete distribution table is set forth at the end of the document to facilitate finding the revision of any present requirement.

The most significant proposed substantive changes are:

(1) Sections 5.6 and 17.2(b) would change the publication dates of the Saturday FEDERAL REGISTER to Monday and of issues which under present procedures would carry a holiday dateline to the day after the holiday. Thus, a FEDERAL REGISTER would be published on each official Federal work day. This would not affect the present work procedures of the Office of the Federal Register or of the Government Printing Office. However, it would eliminate the confusion that frequently arises because of the existence of a Saturday and holiday FEDERAL REGISTER and the absence of a Monday FEDERAL REGISTER and a FEDERAL REGISTER for a work day following a holiday. More importantly, it will make time periods as measured from publication dates more meaningful, particularly for documents published in a Monday issue. In the past the FEDERAL REGISTER usually received on Monday carried a Saturday date and thus 2 days were already lost for any time period measured from the publication date. It is rare today for interested persons to obtain the FEDERAL REGISTER on Saturday whereas when the present schedule was established most Government and business offices were open at least part time on Saturday.

(2) Section 7.5 would liberalize the policy for having a document published

as a separate Part of the FEDERAL REGISTER where a substantial number of copies of the document are required. This practice has proved so popular as a time and money-saver that requests for "Part II's" have steadily increased. It appears that a separate Part can frequently be justified even if the document is less than the 16 FEDERAL REGISTER pages that has been the minimum specified in the Committee's regulations. Proposed § 7.5 eliminates any such minimum and also the references to "Part II" since at times it has been necessary to have "Part III's" to satisfy the number of requests for separate Parts.

(3) Section 8.3(b) would change the cutoff date for the annual CFR so that all documents filed with the Office of the Federal Register on or before December 31 would be reflected in the CFR revised as of the following January first. At present the requirement for publication in the FEDERAL REGISTER before January first causes an annual work increase at the Office of the Federal Register and at the Government Printing Office that becomes increasingly burdensome each year. The Administrative Committee has also considered changing the annual CFR update to a staggered system. Each CFR volume would be updated at least once a year as at present but all volumes would not be updated as of January first. This would significantly shorten the time lag between the annual cutoff date for a volume and the publication of the revised volume. If the Committee decides to convert to such a staggered publication then the cutoff date provisions of § 8.3 would be revised accordingly.

(4) Section 16.1(b) would require that before designating a liaison officer an agency must submit the name of the person it intends to designate, and a short statement of that person's qualifications to the Director of the Federal Register. This will enable the Director to review a proposed appointment and to consult with the appointing agency, if necessary, to insure that each liaison officer is in the best position to serve the interests of his agency, the Office of the Federal Register, and the public they both serve.

(5) Section 18.12 would require that each notice of proposed rule making document submitted for filing and publication "contain a clear preamble statement that discusses the substance of the proposed rules and the major issues involved"; and that each final rule document "contain a concise general preamble statement that discusses the basis and purpose thereof." As was indicated in the preamble to the amendment to 1 CFR Ch. I prescribing the "highlights" requirement (36 F.R. 5203) the Administrative Committee believes that in adopting the original Administrative Procedure Act in 1946 it was the intent of the Congress that rule making documents

contain such statements. The Committee urged each Federal agency submitting documents for publication in the FEDERAL REGISTER to review its rule making program to insure that each document is written in the clearest possible manner, and that each document include an adequate preamble explanation of the significance of the action taken or being proposed. While some improvement has been noted since then, the Committee now believes that further efforts in this direction are warranted. Under the proposed revision, the Director of the Federal Register would be authorized to return to the issuing agencies each document submitted for publication that does not meet the stated requirements.

(6) Section 18.13 would make clear the status of a document revoked by the issuing agency after it has been submitted to the Office of the Federal Register and filed for public inspection but before it is published. Once a document is filed for public inspection it remains on file with the Office of the Federal Register even if revoked by a subsequent document. However, when the rescinding document is received in time neither would be published.

(7) During the time that the "highlights" listing has appeared in the FEDERAL REGISTER a number of agencies have questioned the usefulness of listing relevant dates in the highlights listing. It is argued that any person interested in the subject matter of the highlight entry would consult the actual document. Many documents contain several relevant dates and if any dates are included in a highlight entry it is misleading not to include all. The Administrative Committee believes that inclusion of relevant dates in highlights entries has some merit. However, the Committee recognizes the validity of the above-referenced comments and is interested in the opinions of FEDERAL REGISTER users as to whether relevant dates should continue to be included in the highlights listings.

(8) Since present Part 7 is a codification of sections 1-6 of Executive Order 11030 and Executive Order 11354, proposed Part 19 is merely a republication without change of present Part 7.

(9) Proposed Part 20 spells out more clearly the requirements for preparation and transmittal of material submitted for publication in the U.S. Government Organization Manual. A new section (20.5) would make the "sources of information" listings which were introduced in the 1971/72 edition of the Manual a permanent feature and would require each agency to furnish the necessary information for these listings.

(10) Since present Part 20—Incorporation by Reference—is a regulation of the Director of the Federal Register rather than of the Administrative Committee its revision is not proposed to be included in Chapter I. Rather, it is proposed that a new Chapter II—Office of

the Federal Register—be established and that the regulations governing incorporation by reference be included in a proposed Part 51. Several proposed substantive changes in the existing incorporation by reference regulations are described in a separate document published in this issue of the FEDERAL REGISTER at page 6817.

Interested persons are requested to comment on the proposed new regulations of the Administrative Committee by submitting their comments to the Secretary, Administrative Committee, Office of the Federal Register, NARS, Washington, D.C. 20408. All comments received by June 5, 1972, will be considered.

By order of the Administrative Committee of the Federal Register.

FRED J. EMERY,  
Secretary.

- (c) Quasi-official agencies represented in the Manual.
- (d) Any other agency that the Director believes should be included in the Manual.

Each liaison officer will insure his agency's compliance with Part 9 of this chapter and this Part 20.

**§ 20.2 Preparation of agency statements.**

In accordance with schedules established under § 20.7 each agency shall

[Based in part on 31.16 and 31.17]

**§ 20.3 Organization.**

(a) Information about lines of authority and organization may be reflected in a chart if the chart clearly delineates the agency's organizational structure. Charts must be submitted in duplicate in the form of clear prints suitable for photographing. Charts should be prepared so as to be perfectly legible when reduced to the size of a Manual page. Charts that do not meet this requirement will not be included in the Manual.

(b) Listings of heads of operating units should be arranged wherever possible to reflect relationships between units.

[Based in part on 31.19]

**§ 20.7 Deadline dates.**

The Manual is published on a schedule that insures the information in it is available to the public on a timely basis. Therefore, agencies must comply with the deadline dates established by the Director of the Federal Register for transmittal of statements and charts and for the verification of proofs. Failure to do so may result in publication of an outdated statement or the omission of important material, thus depriving mem-

bers of the public of information they have a right to expect in a particular edition of the Manual.

**OFFICE OF THE  
FEDERAL REGISTER**

11 CFR Ch. II

**INCORPORATION BY REFERENCE**

**Notice of Proposed Rule Making**

The Director of the Federal Register is considering amending the regulations concerning the "incorporation by reference" of certain documents in the FEDERAL REGISTER. The present regulations governing incorporation by reference are contained in Part 20 of Chapter I of Title 1 of the Code of Federal Regulations. By a separate document published in this issue of the FEDERAL REGISTER, the Administrative Committee of the Federal Register is proposing a general revision of its regulations. Since present Part 20 is a regulation of the Director of the Federal Register (sec. 5 U.S.C. 552(a)) rather than of the Administrative Committee, it is proposed to transfer its requirements to a new Part 51 in a new Chapter II—Office of the Federal Register.

For the most part, proposed Part 51 is merely a renumbering with minor revisions of present Part 20. However, several significant changes are proposed, as follows:

(1) It is proposed that present paragraph (c) of § 20.4 (proposed § 51.3) be deleted. This paragraph now attempts to make a distinction between the "legal promulgation of a document in the FEDERAL REGISTER" and the use of "incorporation by reference within a document." It is generally agreed that incorporation by reference, if overused, could eventually result in emasculation of the Code of Federal Regulations. Thus, there is a legitimate reason for rejecting many proposed incorporations that could be considered "promulgation by reference." On the other hand, there may be cases, such as the postal service procurement regulations (see 36 F.R. 23217) where the public interest is better served by avoiding the publication in the FEDERAL REGISTER/CFR system of detailed regulations aimed at a fairly small class of persons who may be adequately served by a separate publication. Furthermore, there is no really clear line between "promulgation by reference" and "incorporation by reference" as is demonstrated by an examination of the incorporations that have previously been approved under Part 20. Deletion of present § 20.4(c) would not be an invitation to extensive use of incorporation by reference. The Director of the Federal Register would continue to examine each case on its merits and would approve only those where the incorporation would appear to serve the public interest.

(2) A new § 51.5 is proposed to require the filing of copies of all material that is approved for incorporation by reference (including copies of each amendment or revision) with the Office of the Federal Register. This new requirement is proposed for at least two reasons. First, it will permit the Office of the

Federal Register to maintain a complete historical file of all material that is approved for incorporation by reference. Secondly, it will ensure that the intent of the original Federal Register Act (44 U.S.C. 1501-1511) concerning the filing of regulatory material is carried out. It has been argued by some in the past that a reading of 44 U.S.C. 1503, together with 5 U.S.C. 552(a), in fact already requires such a filing.

(3) Paragraph (c) of proposed § 51.8 contains new material not presently in Part 20. This proposed paragraph makes it clear that future amendments or revisions of a document that is incorporated by reference cannot automatically be included without further publication in the FEDERAL REGISTER. Automatic inclusion of future amendments or revisions to a document incorporated by reference is considered inappropriate for several reasons. For one, it could in many instances amount to an unlawful delegation of legislative authority to a private organization. Secondly, in cases where the proposed rule making requirements of 5 U.S.C. 553 apply, automatic inclusion of changes to an incorporated document would violate these requirements since the public would have no opportunity to comment thereon.

(4) Paragraph (c) of § 51.10 also contains new material not presently in Part 20. This paragraph is intended to clarify the status of any incorporation by reference that is included in a regulatory document without the approval of the Director of the Federal Register and that is inadvertently published in the FEDERAL REGISTER. The staff of the Office of the Federal Register makes every effort to prevent the publication of unapproved incorporations by reference. However, because of the constantly increasing number of documents processed daily, it is possible for one to slip through the editing process.

Interested persons are invited to comment on the proposed new regulations governing incorporation by reference by submitting their comments to the Director of the Federal Register, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408. All comments received by June 5, 1972 will be considered.

FRED J. EMERY,  
Director of the Federal Register.

**GENERAL**

**§ 51.1 Policy.**

(a) Section 552(a) of Title 5, United States Code, provides, in part, that "matter reasonably available to the class of persons affected thereby is deemed published in the FEDERAL REGISTER when incorporated by reference therein with the approval of the Director of the Federal Register".

(b) The Director will strictly interpret the language quoted in paragraph (a) of this section to provide fairness and uniformity in administrative proceedings involving publication in the FEDERAL REGISTER.

(c) The Director will interpret and apply the language quoted in paragraph (a) of this section with full regard to the significance of related instruments governing publication in the FEDERAL REGISTER and the Code of Federal Regulations. Related instruments include—

- (1) Subchapter II of Chapter 5 of Title 5, United States Code;
- (2) Chapter 15 of Title 44, United States Code;
- (3) Chapter I of this title; and
- (4) Special statutory provisions, listed in appendix B to Chapter I of this title, that require publication in the FEDERAL REGISTER.

(d) The Director will assume that the language quoted in paragraph (a) of this section is—

- (1) Designed to cover the limited purposes of section 552(a) of Title 5, United States Code;
- (2) Intended to benefit both the Federal Government and the members of the classes affected by reducing the volume of matter printed in the FEDERAL REGISTER; and
- (3) Not intended to detract from the legal or practical attributes of the system established under the basic instruments listed in paragraph (c) of this section.

[Based on 20.1 and 20.2]

**§ 51.2 Matter eligible.**

To be eligible for incorporation by reference, under section 552(a) of Title 5, United States Code, in a document to be published in the FEDERAL REGISTER, material must conform to the policy stated in § 51.1 and be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to the members of the class that would be affected by the publication.

[Based on 20.3]

**§ 51.3 Distinctions.**

(a) *Ordinary references.* For the purposes of this part, informational references and cross references that do not purport to incorporate outside matter within a FEDERAL REGISTER document are not considered to be legal incorporations

by reference under section 552(a) of Title 5, United States Code.

(b) *Regulations governing availability of agency issuances.* Regulations governing the availability of agency issuances are not considered to be legal incorporation by reference under section 552(a) of Title 5, United States Code.

[Based on 20.4]

§ 51.4 Elements on which approval may be based.

The Director of the Federal Register will approve an incorporation by reference only when the following considerations are favorable and reasonably stable:

(a) The matter is eligible.

(b) Incorporation will substantially reduce the volume of material published in the FEDERAL REGISTER.

(c) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(d) The incorporating document is drafted and submitted for publication in accordance with this part.

[Based on 20.5]

§ 51.5 Filing.

Copies of material approved for incorporation by reference including copies of all amendments or revisions to that material, shall be filed with the Office of the Federal Register.

#### DRAFTING STANDARDS

§ 51.6 Language of incorporation.

(a) The language incorporating material by reference shall be as precise and complete as possible.

(b) The words expressing the incorporation shall make it clear that the incorporation by reference is intended and completed by the document in which it appears.

[Based on 20.10]

§ 51.7 Identification and description.

(a) Each incorporation by reference shall include an identification and subject description of the matter incorporated, in terms as precise and useful as practicable within the limits of reasonable brevity.

(b) Titles, dates, editions, numbers, authors, and publishers shall be stated whenever they would contribute to clear identification.

(c) A brief subject description shall be included to inform the user of his potential need to obtain the matter incorporated.

[Based on 20.11]

§ 51.8 Statement of availability.

(a) *Information.* Each incorporation by reference shall include a statement covering the availability of the material incorporated, including current information as to where and how copies of it may be examined and be readily obtained with maximum convenience to the user.

(b) *Official showing.* Inclusion of the statement required by paragraph (a) of this section constitutes an official showing by the issuing agency that the material incorporated is, in fact, reasonably available to the class of persons affected.

(c) *Future amendments or revisions.* In any case in which incorporated material will be subject to change, the statement required by paragraph (a) of this section shall set forth that information. However, the incorporation of material in a FEDERAL REGISTER document by reference is limited to the material as it exists on the effective date of the document. Future amendments or revisions of material incorporated by reference are not included. They may be added as they become available, or at any later time, by the issuance of an amendatory document. Separate approval of the Director of the incorporation of each amendment whose original incorporation was approved need not be obtained if

all other requirements of this part are met.

[Based on 20.12 plus new material]

(b) After completion of the consultation, the Director will notify the agency of his decision, at least 5 working days before the proposed date of submission of the document.
