Subject: Commercial Diving Operations: 46 CFR 197

Re: Advanced Notice of Proposed Rulemaking: Docket USCG- 19983786

North Coast Divers, Inc., as an active member of the Association of Diving Contractors, wishes to encourage the USCG to accept and implement the changes and revisions to 46 CFR 197 as submitted by the ADC.

The Association of Diving Contractors comments and recommendations, to be submitted directly by the organization in response to Questions 1-1 4 of ANPRM, Docket Ref: USCG- 1998-3786, have been carefully reviewed by us. It is our opinion that the questions raised by the USCG have been answered in a manner to promote greater safety in the commercial diving industry. We further believe that adoption and implementation of the ADC recommendations to be appropriate to current Coast Guard initiatives involving Partnering Through People and Industry.

It is also strongly recommended that the ADC Consensus Standards for Commercial Diving Operations, to be revised to reflect decisions made with regard to response the reference ANPRM, be, as a minimum, quoted int he resulting rulemaking document as a primary reference for the conduct of commercial diving. In fact, I would urge the USCG to adopt the ADC Consensus Standards for Commercial Diving Operations as the U.S. National regulation.

Th e ADC consensus Standards document is reviewed on an annual basis to identify changes that may be appropriate. After approval by a consensus of the members and the Board of Directors are such changes promulgated.

This process is intended to make provision for advances in technology; change to industry operating practice, and/or other events that may transpire. Further; the ADC Consensus Standards are to be posted on the Internet and thus change related actions can be promulgated to all stakeholders in a cost-effective and thorough manner and, at no cost to USCG.

Sincerely,

NORTH COAST DIVERS, INC.
