### Comment

To whom it may concern,

My name is Scott E. Smith, I am 43 years of age, and I live in Southern Illinois. I am blind and am a user of adaptive technologies to use a computer(s), I also use a smart phone to stay in touch with family, friends, and people. I would like for this new proposal to add to the currant legislation not just for myself but other physically challenged people. There is a growing number of physically challenged people that are furthering their education, and this would not just help with their strive for education but for when they, like myself, go into the work force. time is of the essence and that the 508/255 refresh must be finalized by the end of this year so that a lot of barriers can be removed for the physically challenged.

Yours truly,

Scott E. Smith
