Re: Proposed Rule, Updated Accessibility Requirements
Information and Communication Technology in the Federal sector as
per Section 508 of the rehabilitation Act and section 255 of the
communications Act

To the Access Board :

I greatly appreciate the opportunity to offer comments on the
Proposed Rules.

It is crucial for people with Environmental Illness/Intolerance to be
able to use federal and federally funded programs and facilities, and
all it takes is simply reasonable efforts, such as the ones described by
Susan Molloy, M.A. Rehab Assistance for Environmental
Illness/Intolerance and Mary Lamielle, Director, National Center for
Environmental Health Strategies, submitted to Docket :ATBCB-2015-
0002, ICT NPRM, comment number ATBCB-2015-0002-0032 , which I
strongly support.

The provisions listed by Susan Molloy and Mary Lamielle, are
excellent, and ought to be adopted by the US Access Board in order
to be able to provide at least a minimum access to federal and
federally-funded programs and facilities, to the disabled persons who
are legally entitled to access .

It is an absolute necessity to include these provisions in the final rule
.Thank you very much for your cooperation into this matter which
means so much for persons legally disabled by Environmental
illness/Intolerance.
