Comment

VASTEC, a leading provider of Section 508 services to government and commercial clients, concurs with recommendations to refresh Section 508 requirements and urges passage. We congratulate the Access Board for their work on this important refresh of Federal accessibility standards, said Richard Salem, CEO of VASTEC. VASTEC accessibility services have long adhered to WCAG 2.0 standards. We embrace the proposed rule changes and will further adapt our services as needed to the finalized rules to ensure continued compliance for VASTEC clients and partner organizations in service to individuals with disabilities.
