**SUMMARY OF MEETING:** This ASTM International organizational meeting discussed a possible standards development activity on lead in children's vinyl products. ASTM staff and the subcommittee chairman provided background information on ASTM and ASTM standards processes. By a show of hands, participants voted to proceed with developing a standard as ASTM subcommittee F15.62. CPSC staff abstained from the vote in accordance with CPSC regulations. The chairman provided a draft standard with a suggested framework for what a standard might include. The meeting continued with discussion of the draft and related issues and concluded with instructions from the chairman for participants to submit initial comments to ASTM within 30 days. Additional information, including the meeting minutes, may be requested from Len Morrissey, ASTM International (telephone: 610-832-9719).
