They reveal a little more...

Here is a shortcut:

Our Federal Register notice is available for public inspection and we have gone ahead and put the 60 pages of "meat" of the revisions on the OMB website (along with the link to the Federal Register).

It's under "What's new" on the OIRA website at http://www.whitehouse.gov/omb/inforeg_default and the information policy page under standards -- http://www.whitehouse.gov/omb/inforeg_infopoltech.
