

Preface

This document is Part 1 of the official 2001 triennial compilation and publication of the adoptions, amendments and repeal of building regulations to the California Code of Regulations, Title 24, also referred to as the *California Building Standards Code*. This Part is known as the *California Building Standards Administrative Code*.

The *California Building Standards Code* is published in its entirety every three years by order of the California legislature, with supplements published in intervening years. The California legislature delegated authority to various State agencies, boards, commissions and departments to create administrative regulations to implement the State's statutes. These administrative regulations have the same force of law, and take effect 30 days after filing at the California Secretary of State's office unless otherwise stipulated. *The California Building Standards Code* applies to all occupancies throughout the State of California as annotated.

A city, county or city and county may establish more restrictive administrative regulations reasonably necessary because of local climatic, geological or topographical conditions. Findings of the local condition(s) and the adopted local administrative regulation(s) must be filed with the California Building Standards Commission to become effective and may not be effective sooner than the effective date of this edition of *California Building Standards Code*. Local administrative regulation(s) adopted to be applicable to previous editions of the *California Building Standards Code* do not apply to this edition without appropriate adoption and the required filing.

Should you have any questions regarding this code or wish to offer comments toward improving the format, please address your questions and comments to:

Preface

This document is Part 6 of the official 2001 triennial compilation and publication of the adoptions, amendments and repeal of building regulations to the California Code of Regulations, Title 24, also referred to as the *California Building Standards Code*. This Part is known as the *California Energy Code*.

The *California Building Standards Code* is published in its entirety every three years by order of the California legislature, with supplements published in intervening years. The California legislature delegated authority to various State agencies, boards, commissions and departments to create building regulations to implement the State's statutes. These building standards have the same force of law, and take effect 180 days after publication unless otherwise stipulated. *The California Building Standards Code* applies to all occupancies throughout the State of California as annotated.

A city, county or city and county may establish more restrictive building standards reasonably necessary because of local climatic, geological or topographical conditions. Findings of the local condition(s) and the adopted local building standard(s) must be filed with the California Building Standards Commission to become effective and may not be effective sooner than the effective date of this edition of *California Building Standards Code*. Local building standard(s) adopted to be applicable to previous editions of the *California Building Standards Code* do not apply to this edition without appropriate adoption and the required filing.

How to Determine Where And What Changes Have Been Made

The symbols in the margins indicate where changes have been made or language has been deleted.

This symbol indicates that a change has been made.

This symbol indicates deletion of language

L

L

L

L

L

This symbol is primarily for the benefit of local agencies such as city and county building departments, who, by law, must enforce selected sections of the California Referenced Standards Code. An “L” in the margin signals such sections.
