Hi Deb,

Thank you for the quick follow-up concerning the 2014 NEC copies/downloads. The commissioners requested CD's but I will confirm if the downloads will be acceptable.

As for the contract, Kevin is pushing it forward as fast as he can. As previously discussed, the Department of General Services Procurement Division is now preparing the agreements and it has added quite a bit of time to the process. We are meeting again today to review status. Kevin has already noted that he wanted to contact you with an update.

Thank you!

Cynthia

Hi Cynthia,

Happy New Year! I've tried a few times to call you and am unable to connect. Very strange. I have a few questions for you on your request to Bill Mahoney about getting CDs of the 2014 NEC.

- What format do the commissioners want the NEC in? Is it acceptable to provide PDFs? We would provide a link to our FTP site for download.
- Can we get a firm number of downloads can we expect?
- Do you know where the contract is? We had a teleconference on July 27 to discuss the new contract and that is the last I've heard of it.

Thanks, Cynthia!

Happy New Year Bill!

Would it be possible to get CD's of the model electrical code? Our commissioners have requested a copy to facilitate their review of the new code proposals. We could use 12-15 copies. Please let me know!

Separately, I'd like to coordinate a time to touch base with you concerning the 2016 California Electrical Code that is scheduled for publication in July! The commission review/approval will take place January 19-20, and then we'll be busy getting the documents ready for your staff. Let me know when you would like to discuss.

Thank you for the follow-up concerning the CD's. The need has been suspended for now. I may request them again in the future.

As for the contract, it is nearly ready to come your way. It will be issued by DGS Procurement. Once you have it please let us know if you have any questions. In the meantime, I have forwarded the express terms to Bill Mahoney so BNI can get started on the California Electrical Code! Additionally, the cover artwork is nearly done and I'll be coordinating with Bill's team and ICC to exchange the necessary graphics file(s). I am in the office should we need to discuss.

Good morning,

I will be forwarding the master state agency shipping information for the new California codes today. Please confirm who should receive the shipping information on your end.

Many of the state agencies are asking for electronic versions of the codes as well as hard copies. Can you please advise how your specific electronic access will work? For example, will individuals and/or agencies be provided with disk or an online link and/or individual passwords to access searchable, downloadable, printable parts of the code? Will both PC and Mac users be able to easily access? Additionally, please provide an ETA regarding availability of the electronic versions.

And lastly, please let me know what you need from me in order to fulfill the electronic requests. The list I forward today will include electronic versions but it is primarily intended for shipping the hard copies ASAP.

Thank you in advance for your prompt attention to this request!

Hi Cynthia,

I will create a PDF for you once I've receive the files from BNi and they are posted to our website. I will get back to you on an estimated time of delivery. The PDF will be watermarked with Jim McGowan, Executive Director as the designated user. Please let me know if you want someone else's name to appear. You will be able to copy the PDF but not remove the watermark. You will be able to distribute the file to the appropriate agencies, which can copy the PDF. The file will always carry the watermark of Jim McGowan, Executive Director, which will look like the sample below.

Hi Cynthia,

Our estimated time is three weeks to bookmark the PDF. Then, the PDF will go to our vendor to prep the file to be posted for free access. Once that is done then internally we will send you the link for posting, and send you the PDF for distribution.

We are also working to convert the files to Word for your next revision. The bookmarking and conversion to Word are happening at the same time. Lots of pieces to juggle.

I will keep you posted.

Best regards,

Debra

Hi Cynthia,

I will create a PDF for you once I've receive the files from BNi and they are posted to our website. I will get back to you on an estimated time of delivery. The PDF will be watermarked with Jim McGowan, Executive Director as the designated user. Please let me know if you want someone else's name to appear. You will be able to copy the PDF but not remove the watermark. You will be able to distribute the file to the appropriate agencies, which can copy the PDF. The file will always carry the watermark of Jim McGowan, Executive Director, which will look like the sample below.

inquiries or to report unauthorized use, contact licensing@nfpa.org. This NFCSS All Access subscription expires on December 31, 2050.

Please let me know if you want to change the designated user.

Also, we will prepare a link for online access to the CEC 2016 edition. But, again I have to wait for BNi to send the file to me, then the file still needs to be hyperlinked and uploaded. I will get back to you on an estimated time of delivery.

Good morning,

I will be forwarding the master state agency shipping information for the new California codes today. Please confirm who should receive the shipping information on your end.

Many of the state agencies are asking for electronic versions of the codes as well as hard copies. Can you please advise how your specific electronic access will work? For example, will individuals and/or agencies be provided with disk or an online link and/or individual passwords to access searchable, downloadable, printable parts of the code? Will both PC and Mac users be able to easily access? Additionally, please provide an ETA regarding availability of the electronic versions.

And lastly, please let me know what you need from me in order to fulfill the electronic requests. The list I forward today will include electronic versions but it is primarily intended for shipping the hard copies ASAP.

Thank you in advance for your prompt attention to this request!

Sincerely,

Cynthia

Hi Cynthia,

That's interesting that it still has my name...I'm going to ask someone in our IS if I can get my name off the watermark and supply you with a new file. Is that okay?

Thanks for pointing it out to me!

Deb,

Thank you so much for resending the pdf of the 2016 Code. We have posted it on our website (and already received comments about the header on each page, i.e., Debra Rose designated for C...).

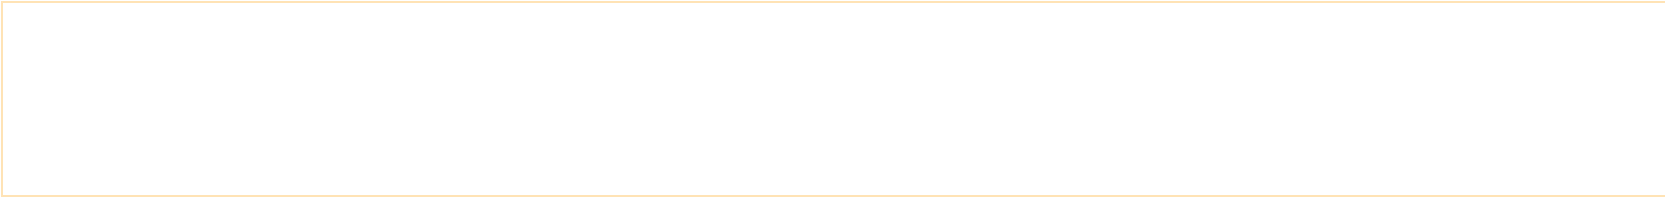

I just wanted to let you know that it is posted should there be any confusion.

Regards,

Cynthia

Greetings,

We have a couple of requests!

1. Copies of the new 2017 NEC for the respective state agencies to review. I don't see a record of how many we have received in the past; do you by chance have documentation? The following agencies will need to review; in the absence of a previous record of what we normally have requested, would it be possible to get at least 10 for now? If so, please send them to my attention at CBSC, 2525 Natomas Park Drive, Suite 130, Sacramento, CA 95833.

2. Are you offering training on the 2016 California Electrical Code? If so, can you direct me to dates/times? Mike thinks that CBSC staff may need to attend.

Thank you in advance for your assistance with these requests. Please let me know if you have any questions.

Hi Cynthia,

I just noticed in your email from October 24, that you have posted the CA-NEC PDF to your website <http://www.bsc.ca.gov/Codes.aspx>

NFPA has not granted the CBSC permission to post the material to the state's website.

The PDF was supplied to you for distribution of office copies only. Please take down Part 3 – California Electrical Code (PDF) from your website and replace with our link provided below. This is the same process we have done in the past.

<http://www.nfpa.org/codes-and-standards/document-information-pages/free-access?mode=view&t=other&c=CALNEC2016>

Also, I received an email from ZixMail notifying me that access to the Word file of the CA-NEC has expired.

Best regards,

Dear Bill,

We received 10 sets of the 2016 California Electrical Codes this morning, which we did not order. We did request 10 copies of the 2017 NEC, which Deb Rose advised would be sent from BNI; a possible miscommunication with shipping or.?

We'd like to have the 10 sets we received picked up and returned to your inventory. And in turn get the 2017 NEC books.

Please let me know.

Thank you!
