Hi Heather,

We generally do not change the language in the CCC-307 document. However, the statement from your employee handbook (highlighted below) meets the intent of the requirement in para 2.b.(1).

Thanks for asking!

Bruce,

Thanks for taking the time to talk to me today.

I want to close the loop on the issue with respect to the CCC-307 regarding Drug Free Workplace requirements.

CCC-307, at Section 2, asks us to affirmatively certify to the following:

2. **DRUG-FREE WORKPLACE REQUIREMENTS:** Contractor will comply with the requirements of the Drug-Free Workplace Act of 1990 and will provide a drug-free workplace by taking the following actions:

- a. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations.

b. Establish a Drug-Free Awareness Program to inform employees about:

- 1) the dangers of drug abuse in the workplace;
- 2) the person's or organization's policy of maintaining a drug-free workplace;
- 3) any available counseling, rehabilitation and employee assistance programs; and,
- 4) penalties that may be imposed upon employees for drug abuse violations.

c. Every employee who works on the proposed Agreement will:

- 1) receive a copy of the company's drug-free workplace policy statement; and,
- 2) agree to abide by the terms of the company's statement as a condition of employment on the Agreement.

Failure to comply with these requirements may result in suspension of payments under the Agreement or termination of the Agreement or both and Contractor may be ineligible for award of any future State agreements if the department determines that any of the following has occurred: the Contractor has made false certification, or violated the certification by failing to carry out the requirements as noted above. (Gov. Code §8350 et seq.)

I am confident that we accomplish everything besides B(1).

For (A), (B)(2), (B)(4), and (C), we have a drug-free workplace policy in our employee handbook, which specifies that violation can result in discipline up to and including termination — our employees affirmatively acknowledge this. For B(3), we have, and employees are made aware of, an employee assistance program.

I am concerned that we may not have a program that qualifies as “inform[ing] employees about the dangers of drug abuse in the workplace” and that we may not, therefore, meet the requirements of B(1). Our employee handbook states, “The possession, use, or sale of controlled substances... in the workplace, or individuals who are under the influence of these substances, pose unacceptable risks for safe, healthful, and efficient operations. All employees must report to work in a fit condition to perform their jobs safely and well.” That is the extent of our program’s provision of educational information about the dangers of drug use.

I would suggest — unless you object — that we simply strike through (B)(1) and initial it. Let me know if you anticipate this causing a problem.

Best,
Heather

I suspect my general counsel, Monte Bogatz, will be able to get you the required info as I know that he and Heather Koffman, our associate general counsel, will be getting back to you today on some of the changes to the contract and our wanting to be sure we are able to comply with all of the provisions of this updated agreement.

Monty, Heather, could one of you get back to Bruce immediately so we don't hold him up for his intended deadline.

All the best!

Good morning Russ,

Is it possible for you to complete the STD204 form that is attached to this email and return it to me today. There is information I need on the form (you FEIN) to get some processes started here at the State. Waiting beyond today may put our May 1st deadline in jeopardy and we want to get the contract executed on that date.
