Re: Unauthorized use of Compressed Gas Association Copyrighted Works
by PublicResource.Org

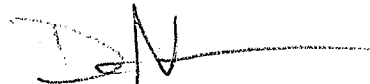

Dear Andrew:

We serve as trademark counsel for Compressed Gas Association, Inc. ("CGA"). We write to provide a brief response to your letter to Richard Gottwald dated December 17, 2019.

As you may expect, CGA respectfully disagrees with many of the contentions set forth in your letter, including those regarding the ongoing harm caused by the continued availability of CGA's copyrighted works on your client's website. CGA does agree with your client, however, that a needless confrontation is best avoided. To that end, CGA respectfully reserves all rights with respect to this matter pending resolution of the litigation between ASTM International and PublicResource.org before the U.S. District Court for the District of Columbia.

Very truly yours,

HOLLAND & KNIGHT LLP
