README.txt: BabyBlue edits
==========================
2015-01-16

Contributors: Frank Bennett
              Rintze Zelle

------------------------------------------------------------

Carl,

This tar archive contains our suggested edits to the HTML source of
the BabyBlue draft, and a couple of index files that may be helpful
when merging our work with other contributions. If it will help your
work to have the content organized differently, just let me know;
we have our work under git version control, and it can be remixed
to suit your workflow.

CONTENTS

  BabyBlue.20160116.html
    A copy of the HTML source incorporating our edits.

  patches/
    A directory containing patch files, each named for the rule (or
    table or section) that it touches. Each file contains a
    description of the changes that it makes.

  OVERVIEW.txt
    While the patch files isolate the changes for each rule, many of
    the original git changesets from which they are derived were
    document-wide.  This index provides an overview of the original
    changesets, it case it is useful for reference.

  DESCRIPTIONS.txt
    A human-friendly index of the comments in the patches/ file
    for quick reference, numbered in parallel with the patch files
    themselves.

  LOG.txt
    This is the commit history of the git branch from which the files
    under patches/ have been dumped. The ordering is the same as the
    entries in the DESCRIPTIONS.txt index.
```

```
OVERVIEW.txt: BabyBlue edits
============================
Titles of changes applied

   * A single author's [sic?] work presumably has only one author [rmzelle]
   * A very small nit. [fbennett]
   * Abbreviate to "N.D." (rule 11.2.7) [rmzelle]
   * Add <var/> element [rmzelle]
   * Add <var/> elements and small edits. [rmzelle]
   * Add Second Series to description. [fbennett]
   * Add a linked note to an exception. [fbennett]
   * Add boldface for consistency. [fbennett]
   * Add cross-links. [rmzelle]
   * Add missing <var/> element [rmzelle]
   * Add missing hash to anchor ref [fbennett]
   * Add missing space [rmzelle]
   * Add missing space. [fbennett]
   * Add small hard margin to left and right. [fbennett]
   * Adjustments to grammar. [rmzelle]
   * Anchor to R10 for order of authorities [rmzelle, fbennett]
   * Avoid repeat of "coverage." [fbennett]
   * Capitalize Rule in anchor text [fbennett]
   * Change "children by" to "children but" [rmzelle]
   * Change "maintains" to "citing." [fbennett]
   * Change "sources" to "cites" [rmzelle]
   * Change all instances of ",</a>" to "</a>," [rmzelle]
   * Change all instances of ",<\/a>" to "<\/a>," [rmzelle]
   * Change sources to cites [rmzelle]
   * Correct "parenthesis" to "parentheses" where it is supposed to be plural. [rmzelle]
   * Correction to rule [rmzelle]
   * Explanatory phrases are never followed by a comma, right? [rmzelle]
   * Fill out alt text and center for cover photo. [fbennett]
   * Fix broken link [fbennett]
   * Fix some formatting/typos [rmzelle]
   * Fix some minor formatting issues [rmzelle]
   * Fix typo (insert "jurisdictions") [rmzelle]
   * Fix typo [rmzelle]
   * Fix typos [rmzelle]
   * Force lowercase in title. [fbennett]
   * Formatting adjustment. [rmzelle]
   * Grammar tweak. [fbennett]
   * Italicize case name [rmzelle]
   * Justify blockquotes, as specified in R40.2 [rmzelle]
   * Make ref to Rule 11.2.19 and link [rmzelle, fbennett]
   * Normalize presentation of examples [fbennett]
   * Normalize references to "Bluebook" [rmzelle]
   * Normalize text/formatting [rmzelle]
   * Normalize to BabyBlue as in text. [rmzelle]
   * Normalize to LEXIS (all-caps) [rmzelle, fbennett]
   * Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]
   * Pluralize "examples" [rmzelle]
   * Prefix all table references with a "T" [rmzelle]
   * Pretty sure "S. Ct." needs a space, per the examples. [rmzelle]
   * Provide rule for forced lowercase in title. [fbennett]
   * Remove "either" [rmzelle]
   * Remove duplicate word. [fbennett]
   * Remove period following "supra". [rmzelle]
   * Remove unused ID from display table. [fbennett]
   * Revision for clarity [rmzelle]
   * Rule 11.11 does not exist, ref appears to be to R11.2.19 [rmzelle, fbennett]
   * Rule 14.3.1 does not exist. General abbrev guidance at R11 [fbennett]
   * Rule for slip opinions is at R12.4.2. [fbennett]
   * Save some space by not repeating acronyms within same paragraph. [rmzelle]
   * Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]
   * Set ref to R4.2 and link. [rmzelle, fbennett]
   * Shorten sentence a bit (to keep BB concise!) [rmzelle]
   * Slight edit for clarity. [fbennett]
   * Small changes for grammar, precision. [fbennett]
```

* Small factual corrections [fbennett]
* Smooth out text and examples. [fbennett]
* Spell out referenced rule numbers and add links. [fbennett]
* Splice signal to sentence. [fbennett]
* Standardize text with neighboring examples. [rmzelle]
* Table T.1.3 does not exist. Ref appears to be to Table T2 [fbennett]
* Tiny tweaks to grammar and style. [fbennett]
* Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
* Use en-dash in Sarbanes—Oxley. [fbennett]
* Use singular noun. [fbennett]
* add space [rmzelle]
* edit for consistency within list [fbennett]

```
DESCRIPTIONS.txt: BabyBlue edits
================================

Index of changes applied (by rule, table or section)

 1. Metadata: Normalize to BabyBlue as in text. [rmzelle]
    ---------------

 2. Layout: Add small hard margin to left and right. [fbennett]

      * On a small laptop monitor (1600x900), the text was aligned with
        the margins exactly, and the left-offset of the second-level Rule
        headings was moving the "R" beyond the visible area. (tested under
        Firefox)

    Layout: Provide rule for forced lowercase in title. [fbennett]
    ---------------

 3. Cover: Fill out alt text and center for cover photo. [fbennett]

      * When the text is displayed instead of the cover photo, the full
        form looks nice. text-align takes effect on the ALT tag text when
        it is used to replace the IMG source (tested in Firefox only).

    Cover: Normalize to BabyBlue as in text. [rmzelle]

    Cover: Force lowercase in title. [fbennett]
    ---------------

 4. Foreword: Small factual corrections [fbennett]

      * It is certainly a pleasant surprise to feature in the first
        paragraph of the Foreword. I've made a few small corrections to
        the summary of events. (This diff is of course just one way of
        expressing the changes.)

        - The project now resides at https://juris-m.github.io, under the
          name "Juris-M."

        - Juris-M (nee MLZ) is not a part of Zotero, but a variant. They
          like for us to keep to keep the distinction clear, so that bug
          reports and the like land in the right place.

        - Work on MLZ started in 2009, and my first approach to the
          Bluebook editors was in 2011.

    Foreword: Normalize to BabyBlue as in text. [rmzelle]

    Foreword: Fix typos [rmzelle]

    Foreword: Adjustments to grammar. [rmzelle]

    Foreword: Normalize references to "Bluebook" [rmzelle]

      * Normalize on "the Bluebook" (over "The Bluebook") in running sentences.

      * Normalize ordinals and capitalization of Bluebook editions.
    ---------------

 5. Introduction: Avoid repeat of "coverage." [fbennett]

    Introduction: Normalize references to "Bluebook" [rmzelle]

      * Normalize on "the Bluebook" (over "The Bluebook") in running sentences.

      * Normalize ordinals and capitalization of Bluebook editions.
    ---------------
```

6. R2.1: Add a linked note to an exception. [fbennett]

       * The general rule on case-name italicization is subject to an
         important exception. The change adds a note of it to the statement
         of the general rule under Typeface Standards.
       ----

   7. R2.2: A very small nit. [fbennett]

       * Later-model machines supported alternative fonts.

      R2.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]
      ----

   8. R3.1: Slight edit for clarity. [fbennett]
      ----

   9. R3.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

      R3.2: Set ref to R4.2 and link. [rmzelle, fbennett]

      R3.2: Capitalize Rule in anchor text [fbennett]
      ----

  10. R3.3: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

      R3.3: Pretty sure "S. Ct." needs a space, per the examples. [rmzelle]

      R3.3: Use en-dash in Sarbanes—Oxley. [fbennett]
      ----

  11. R4.2: Remove unused ID from display table. [fbennett]
      ----

  12. R4.3: Splice signal to sentence. [fbennett]

       * I think that this change brings the example into line with the stated rule.

      R4.3: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

      R4.3: Italicize case name [rmzelle]

      R4.3: Anchor to R10 for order of authorities [rmzelle, fbennett]

      R4.3: Capitalize Rule in anchor text [fbennett]
      ----

  13. R6.3: Use singular noun. [fbennett]
      ----

  14. R7.1: Tiny tweaks to grammar and style. [fbennett]
      ----

  15. R8.1: Remove duplicate word. [fbennett]
      ----

  16. R10.2.2: edit for consistency within list [fbennett]

      R10.2.2: Normalize text/formatting [rmzelle]
      ----

  17. R10.2.3: edit for consistency within list [fbennett]
      ----

  18. R10.4.2: edit for consistency within list [fbennett]
      ----

  19. R10.4.3: edit for consistency within list [fbennett]

```
                  ---------------

20. R10.4.3.2: Normalize text/formatting [rmzelle]
                  ---------------

21. R10.4.4: Normalize text/formatting [rmzelle]
                  ---------------

22. R10.6.1: edit for consistency within list [fbennett]
                  ---------------

23. R10.6.3: Normalize text/formatting [rmzelle]
                  ---------------

24. R10.7.1: edit for consistency within list [fbennett]
                  ---------------

25. R10.8: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]
                  ---------------

26. R10.9.1: edit for consistency within list [fbennett]
                  ---------------

27. R10.9.2: A single author's [sic?] work presumably has only one author [rmzelle]
                  ---------------

28. R11.2.1: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.
                  ---------------

29. R11.2.4: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.
                  ---------------

30. R11.2.5: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):
```

- Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.
          ----

31. R11.2.6: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

      R11.2.6: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

      R11.2.6: Change all instances of ",<\/a>" to "<\/a>," [rmzelle]

      R11.2.6: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

      R11.2.6: Rule 11.11 does not exist, ref appears to be to R11.2.19 [rmzelle, fbennett]
      ----

32. R11.2.7: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

      R11.2.7: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

      R11.2.7: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

      R11.2.7: Make ref to Rule 11.2.19 and link [rmzelle, fbennett]
      ----

33. R11.2.8: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

      R11.2.12: Correction to rule [rmzelle]

```
     * Pretty sure "not" shouldn't be here. In the example directly
       below, "of" in "City of Sacramento" is a preposition, right?
     ---------------

34. R11.2.9: Add missing space. [fbennett]

     R11.2.9: Normalize presentation of examples [fbennett]

       * For labels Correct, Incorrect, Exception, Example and Examples:

         - Assured enclosure in boldface tags;
         - Removed any trailing space inside tag;
         - Assured a single space following colon.

       * For case name examples (R11.2):

         - Normalized titles to use italics throughout;
         - Removed citation stubs where not relevant to the illustrated rule.
         - Converted lone "Correct" entries to "Example," or added "Incorrect"
           partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

       * Pretty sure "not" shouldn't be here. In the example directly
         below, "of" in "City of Sacramento" is a preposition, right?
       ---------------

35. R11.2.10: Normalize presentation of examples [fbennett]

       * For labels Correct, Incorrect, Exception, Example and Examples:

         - Assured enclosure in boldface tags;
         - Removed any trailing space inside tag;
         - Assured a single space following colon.

       * For case name examples (R11.2):

         - Normalized titles to use italics throughout;
         - Removed citation stubs where not relevant to the illustrated rule.
         - Converted lone "Correct" entries to "Example," or added "Incorrect"
           partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

       * Pretty sure "not" shouldn't be here. In the example directly
         below, "of" in "City of Sacramento" is a preposition, right?
       ---------------

36. R11.2.11: Smooth out text and examples. [fbennett]

       * Adjust phrasing in rubric for clarity;

       * Provide an Incorrect entry for ACLU example, which illustrates a
         different branch of the stated rule; and

       * Add an example for a preposition-joined geographic locator that
         is part of an institutional name.

     R11.2.11: Normalize presentation of examples [fbennett]

       * For labels Correct, Incorrect, Exception, Example and Examples:

         - Assured enclosure in boldface tags;
         - Removed any trailing space inside tag;
         - Assured a single space following colon.

       * For case name examples (R11.2):
```

- Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

        * Pretty sure "not" shouldn't be here. In the example directly
          below, "of" in "City of Sacramento" is a preposition, right?

     R11.2.11: Abbreviate to "N.D." (rule 11.2.7) [rmzelle]
     ----

37. R11.2.12: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

        * Pretty sure "not" shouldn't be here. In the example directly
          below, "of" in "City of Sacramento" is a preposition, right?
     ----

38. R11.2.15: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.
     ----

39. R11.2.16: Grammar tweak. [fbennett]

     R11.2.16: Fix some formatting/typos [rmzelle]
     ----

40. R11.2.18: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.

```
            - Converted lone "Correct" entries to "Example," or added "Incorrect"
              partner as appropriate.
        --------------

41.  R11.2.19: Spell out referenced rule numbers and add links. [fbennett]

     R11.2.19: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

     R11.2.19: Fix some formatting/typos [rmzelle]

     R11.2.19: Capitalize Rule in anchor text [fbennett]
        --------------

42.  R11.3: Add Second Series to description. [fbennett]

     R11.3: Fix some formatting/typos [rmzelle]

     R11.3: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

43.  R11.4: Revision for clarity [rmzelle]

        * The synonym of "merely", "only", might be confusing, so I picked
          "just".
        --------------

44.  R11.5: Small changes for grammar, precision. [fbennett]

        * Change language slightly to avoid suggesting "passim" goes in the
          same place as a pincite;

        * Add leading apostrophe to "twas", as it is a contraction.

     R11.5: Add boldface for consistency. [fbennett]

     R11.5: Fix typos [rmzelle]

     R11.5: Shorten sentence a bit (to keep BB concise!) [rmzelle]
        --------------

45.  R12.1: Correct "parenthesis" to "parentheses" where it is supposed to be plural. [rmzelle]
        --------------

46.  R12.2: Change "maintains" to "citing." [fbennett]

        * The exception would only apply if the official reporter is the one
          cited -- obvious, but changed for good measure.

     R12.2: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

     R12.2: Pretty sure "S. Ct." needs a space, per the examples. [rmzelle]

     R12.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

47.  R12.3.1: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

     R12.3.1: Prefix all table references with a "T" [rmzelle]

     R12.3.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

48.  R12.3.3: Correct "parenthesis" to "parentheses" where it is supposed to be plural. [rmzelle]
        --------------

49.  R12.4.1: Pluralize "examples" [rmzelle]

     R12.4.1: Normalize to LEXIS (all-caps) [rmzelle, fbennett]
```

```
              --------------

50. R12.4.3: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R12.4.3: Save some space by not repeating acronyms within same paragraph. [rmzelle]
              --------------

51. R13.1: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]
              --------------

52. R14.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
              --------------

53. R14.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R14.2: Pluralize "examples" [rmzelle]
              --------------

54. R14.3: Explanatory phrases are never followed by a comma, right? [rmzelle]
              --------------

55. R15.2.1: Fix typo [rmzelle]
              --------------

56. R16.1.2: Add missing space [rmzelle]
              --------------

57. R16.1.3: Normalize to LEXIS (all-caps) [rmzelle, fbennett]
              --------------

58. R17.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

    R17.1: Table T.1.3 does not exist. Ref appears to be to Table T2 [fbennett]
              --------------

59. R18.2.1: Fix typos [rmzelle]
              --------------

60. R18.4: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

    R18.4: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
              --------------

61. R19.2: Add <var/> elements and small edits. [rmzelle]
              --------------

62. R21.1: Change all instances of ",<\/a>" to "<\/a>," [rmzelle]

    R21.1: Add <var/> elements and small edits. [rmzelle]

    R21.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
              --------------

63. R21.3: Change all instances of ",<\/a>" to "<\/a>," [rmzelle]

    R21.3: Add <var/> elements and small edits. [rmzelle]

    R21.3: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
              --------------

64. R21.4.1: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

    R21.4.1: Change all instances of ",<\/a>" to "<\/a>," [rmzelle]

    R21.4.1: Add <var/> element [rmzelle]

    R21.4.1: add space [rmzelle]
```

```
        R21.4.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

65. R21.4.2: Add <var/> element [rmzelle]

        R21.4.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

66. R21.5.1: Add <var/> elements and small edits. [rmzelle]
        --------------

67. R23.1: Add <var/> elements and small edits. [rmzelle]
        --------------

68. R23.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

69. R24: Fix some minor formatting issues [rmzelle]
        --------------

70. R24.1: Prefix all table references with a "T" [rmzelle]

        R24.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
        --------------

71. R24.4: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

        * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.
        --------------

72. R26: Fix some minor formatting issues [rmzelle]
        --------------

73. R29.2: Fix some minor formatting issues [rmzelle]
        --------------

74. R30.1: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]
        --------------

75. R30.2: Standardize text with neighboring examples. [rmzelle]
        --------------

76. R31.1: Change "sources" to "cites" [rmzelle]
        --------------

77. R32.2: Remove "either" [rmzelle]
        --------------

78. R32.4: Change all instances of ",<\/a>" to "<\/a>," [rmzelle]

        R32.4: Change sources to cites [rmzelle]

        R32.4: Add missing hash to anchor ref [fbennett]
        --------------

79. R33: Add missing <var/> element [rmzelle]
        --------------
```

80. R33.1.2: Add cross-links. [rmzelle]

    R33.1.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
    ----

81. R33.3.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]
    ----

82. R33.5.2: Formatting adjustment. [rmzelle]
    ----

83. R33.6.4: Fix broken link [fbennett]
    ----

84. R34: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.

    R34: Remove period following "supra". [rmzelle]
    ----

85. R39.2: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.
    ----

86. R39.9: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.
    ----

87. R40.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R40.2: Change "children by" to "children but" [rmzelle]

```
        R40.2: Justify blockquotes, as specified in R40.2 [rmzelle]
        --------------

88. T1.1: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]
    --------------

89. T1.2: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

    T1.2: Capitalize Rule in anchor text [fbennett]

    T1.2: Rule for slip opinions is at R12.4.2. [fbennett]

    T1.2: Rule 14.3.1 does not exist. General abbrev guidance at R11 [fbennett]

    T1.2: Rule 14.3.1 does not exist. General abbrev guidance at R11 [fbennett]

commit a971605cee5e59fbc977a09002cafac4d792a6c5
Author: fbennett <biercenator@gmail.com>
Date:   Sat Jan 16 11:34:52 2016 +0900

    T1.1: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

commit e0b3753cc02f71666044426f7cf6314fe302f16b
Author: fbennett <biercenator@gmail.com>
Date:   Sat Jan 16 11:34:21 2016 +0900

    R40.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R40.2: Change "children by" to "children but" [rmzelle]

    R40.2: Justify blockquotes, as specified in R40.2 [rmzelle]

commit ada0904acbbedfd45e11e036fc2484f4a172059c
Author: fbennett <biercenator@gmail.com>
Date:   Sat Jan 16 07:55:16 2016 +0900

    R39.9: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
```

- Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

commit 1852dd5d99ad8fb88b4cc126c61345d520a6dd3a
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 07:55:03 2016 +0900

    R39.2: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

      * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

commit 5951b3f589167b1f7566bf057162dbc6fe20c2b6
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 07:53:34 2016 +0900

    R34: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

      * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

    R34: Remove period following "supra". [rmzelle]

commit 44497e7ee5db7b76175880870dfd742f922907a0
Author: fbennett <biercenator@gmail.com>
Date: Sun Jan 17 09:50:43 2016 +0900

        R12.3.1: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

        R12.3.1: Prefix all table references with a "T" [rmzelle]

        R12.3.1: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

commit cfbb8ac913a60946d7a739ef04a071533a635f29
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 21:42:40 2016 +0900

        R12.2: Change "maintains" to "citing." [fbennett]

          * The exception would only apply if the official reporter is the one
            cited -- obvious, but changed for good measure.

        R12.2: Set ".<\/a>" to "<\/a>." or "<\/a>", as appropriate. [rmzelle]

        R12.2: Pretty sure "S. Ct." needs a space, per the examples. [rmzelle]

        R12.2: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

commit 7ae039e56cd18f4a6dd447e1e9bd3d55208bed35
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 10:13:52 2016 +0900

        R12.1: Correct "parenthesis" to "parentheses" where it is supposed to be plural. [rmzelle]

```
commit 9004eeeb92d4f0a21c250c8848cc6b9e8667aa1c
Author: fbennett <biercenator@gmail.com>
Date:    Wed Jan 13 12:29:07 2016 +0900

    R11.5: Small changes for grammar, precision. [fbennett]

      * Change language slightly to avoid suggesting "passim" goes in the
        same place as a pincite;

      * Add leading apostrophe to "twas", as it is a contraction.

    R11.5: Add boldface for consistency. [fbennett]

    R11.5: Fix typos [rmzelle]

    R11.5: Shorten sentence a bit (to keep BB concise!) [rmzelle]

commit c1efd80eca3009e80272e3bde1cc253a8c2c2794
Author: rmzelle <rintze.zelle@gmail.com>
Date:    Wed Jan 13 22:27:25 2016 -0500

    R11.4: Revision for clarity [rmzelle]

      * The synonym of "merely", "only", might be confusing, so I picked
        "just".

commit ae1c97e838731da28cc9cb636d5cb3207c7fe329
Author: fbennett <biercenator@gmail.com>
Date:    Sat Jan 16 08:48:00 2016 +0900

    R11.3: Add Second Series to description. [fbennett]

    R11.3: Fix some formatting/typos [rmzelle]

    R11.3: Use capital T/R in internal fragment hrefs. [rmzelle, fbennett]

commit 37f4b88fea4466dae8c835666c446c44bebcf411
Author: fbennett <biercenator@gmail.com>
Date:    Wed Jan 13 11:12:35 2016 +0900

    R11.2.19: Spell out referenced rule numbers and add links. [fbennett]

    R11.2.19: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R11.2.19: Fix some formatting/typos [rmzelle]

    R11.2.19: Capitalize Rule in anchor text [fbennett]

commit b9faafa55e1615089213bc60d16f271d4eaf775a
Author: fbennett <biercenator@gmail.com>
Date:    Sat Jan 16 07:51:49 2016 +0900

    R11.2.18: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.

commit a8da1ab833e8901bdb8621945f4f454afdc18873
```

Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 11:08:41 2016 +0900

    R11.2.16: Grammar tweak. [fbennett]

    R11.2.16: Fix some formatting/typos [rmzelle]

commit a3841deb5dd6ef795690d00d9b0fd00579f74be9
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 07:51:38 2016 +0900

    R11.2.15: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.

commit cc3ab4adefcd724c59830ad80925590069ccccc6
Author: fbennett <biercenator@gmail.com>
Date: Sun Jan 17 12:04:45 2016 +0900

    R11.2.12: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

        - Assured enclosure in boldface tags;
        - Removed any trailing space inside tag;
        - Assured a single space following colon.

      * For case name examples (R11.2):

        - Normalized titles to use italics throughout;
        - Removed citation stubs where not relevant to the illustrated rule.
        - Converted lone "Correct" entries to "Example," or added "Incorrect"
          partner as appropriate.

    R11.2.12: Correction to rule [rmzelle]

      * Pretty sure "not" shouldn't be here. In the example directly
        below, "of" in "City of Sacramento" is a preposition, right?

commit 12f171831d81b113af2b9504377a4a272091fa5f
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 14:21:16 2016 +0900

    R11.2.11: Smooth out text and examples. [fbennett]

      * Adjust phrasing in rubric for clarity;

      * Provide an Incorrect entry for ACLU example, which illustrates a
        different branch of the stated rule; and

      * Add an example for a preposition-joined geographic locator that
        is part of an institutional name.

    R11.2.11: Normalize presentation of examples [fbennett]

      * For labels Correct, Incorrect, Exception, Example and Examples:

```
           - Assured enclosure in boldface tags;
           - Removed any trailing space inside tag;
           - Assured a single space following colon.

        * For case name examples (R11.2):

           - Normalized titles to use italics throughout;
           - Removed citation stubs where not relevant to the illustrated rule.
           - Converted lone "Correct" entries to "Example," or added "Incorrect"
             partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

        * Pretty sure "not" shouldn't be here. In the example directly
          below, "of" in "City of Sacramento" is a preposition, right?

     R11.2.11: Abbreviate to "N.D." (rule 11.2.7) [rmzelle]

commit 68ee20eb553a9ef9645bf76f8c5e322e1c6a3817
Author: fbennett <biercenator@gmail.com>
Date:   Sun Jan 17 12:02:47 2016 +0900

     R11.2.10: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

           - Assured enclosure in boldface tags;
           - Removed any trailing space inside tag;
           - Assured a single space following colon.

        * For case name examples (R11.2):

           - Normalized titles to use italics throughout;
           - Removed citation stubs where not relevant to the illustrated rule.
           - Converted lone "Correct" entries to "Example," or added "Incorrect"
             partner as appropriate.

     R11.2.12: Correction to rule [rmzelle]

        * Pretty sure "not" shouldn't be here. In the example directly
          below, "of" in "City of Sacramento" is a preposition, right?

commit 172a7ec45e990d717cbf549ce448f6167a341dac
Author: fbennett <biercenator@gmail.com>
Date:   Wed Jan 13 10:59:30 2016 +0900

     R11.2.9: Add missing space. [fbennett]

     R11.2.9: Normalize presentation of examples [fbennett]

        * For labels Correct, Incorrect, Exception, Example and Examples:

           - Assured enclosure in boldface tags;
           - Removed any trailing space inside tag;
           - Assured a single space following colon.

        * For case name examples (R11.2):

           - Normalized titles to use italics throughout;
           - Removed citation stubs where not relevant to the illustrated rule.

          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

commit 686f41815c23aefb1640f2a1164482bfcbfa3c65
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 07:49:18 2016 +0900

    R11.2.4: Normalize presentation of examples [fbennett]

       * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

       * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

commit 28c57b69be77d82ce0c50c926c67b5cdb5e5d264
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 07:49:03 2016 +0900

    R11.2.1: Normalize presentation of examples [fbennett]

       * For labels Correct, Incorrect, Exception, Example and Examples:

          - Assured enclosure in boldface tags;
          - Removed any trailing space inside tag;
          - Assured a single space following colon.

       * For case name examples (R11.2):

          - Normalized titles to use italics throughout;
          - Removed citation stubs where not relevant to the illustrated rule.
          - Converted lone "Correct" entries to "Example," or added "Incorrect"
            partner as appropriate.

R10.2.2: Normalize text/formatting [rmzelle]

commit 554b20720478a6772e70e6df4ffe783ef5ca9a23
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 10:05:09 2016 +0900

    R8.1: Remove duplicate word. [fbennett]

commit 94d93dfc32d8d8273a2be5ed193ff2757624392a
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 10:01:56 2016 +0900

    R7.1: Tiny tweaks to grammar and style. [fbennett]

commit 66bcc97fe478bfe0becaf12dcc86850435bb181c
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 09:58:24 2016 +0900

    R6.3: Use singular noun. [fbennett]

commit 78aff4f68409741395dc49a066cd836c49f9b2be
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 09:52:19 2016 +0900

    R4.3: Splice signal to sentence. [fbennett]

      * I think that this change brings the example into line with the stated rule.

    R4.3: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R4.3: Italicize case name [rmzelle]

    R4.3: Anchor to R10 for order of authorities [rmzelle, fbennett]

    R4.3: Capitalize Rule in anchor text [fbennett]

commit 1dcef44123878bcb9413a1c0bee80ebe61687166
Author: fbennett <biercenator@gmail.com>
Date: Sun Jan 17 10:38:48 2016 +0900

    R4.2: Remove unused ID from display table. [fbennett]

commit a73bb9538a32acdc9fb36b48cf2b37bd5882a202
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 11:30:19 2016 +0900

    R3.3: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R3.3: Pretty sure "S. Ct." needs a space, per the examples. [rmzelle]

    R3.3: Use en-dash in Sarbanes—Oxley. [fbennett]

commit 87581374d82294083432ffe5c849c8f7776ccc7f
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 11:29:58 2016 +0900

    R3.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

    R3.2: Set ref to R4.2 and link. [rmzelle, fbennett]

    R3.2: Capitalize Rule in anchor text [fbennett]

commit 26669915f0773c2dfd154d273d41bb6496028f40
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 09:44:29 2016 +0900

    R3.1: Slight edit for clarity. [fbennett]

commit 497bbe311642623e040703a04fa480a3134fb4c7
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 09:42:37 2016 +0900

    R2.2: A very small nit. [fbennett]

      * Later-model machines supported alternative fonts.

    R2.2: Per R11.2.3., don't italicize comma after case name (or titles). [rmzelle]

commit 63bd75c335dc05ef1d57621e77dcadbfe2b7f2d6
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 10:56:03 2016 +0900

    R2.1: Add a linked note to an exception. [fbennett]

      * The general rule on case-name italicization is subject to an
        important exception. The change adds a note of it to the statement
        of the general rule under Typeface Standards.

commit ee0cd620192858b9a2348912df3ded6354ba8068
Author: fbennett <biercenator@gmail.com>
Date: Tue Jan 12 14:09:05 2016 +0900

    Introduction: Avoid repeat of "coverage." [fbennett]

    Introduction: Normalize references to "Bluebook" [rmzelle]

      * Normalize on "the Bluebook" (over "The Bluebook") in running sentences.

      * Normalize ordinals and capitalization of Bluebook editions.

commit e5433b6b03dd6f6985489948c3823cf7705f50bd
Author: fbennett <biercenator@gmail.com>
Date: Tue Jan 12 13:49:13 2016 +0900

    Foreword: Small factual corrections [fbennett]

      * It is certainly a pleasant surprise to feature in the first
        paragraph of the Foreword. I've made a few small corrections to
        the summary of events. (This diff is of course just one way of
        expressing the changes.)

        - The project now resides at https://juris-m.github.io, under the
          name "Juris-M."

        - Juris-M (nee MLZ) is not a part of Zotero, but a variant. They
          like for us to keep to keep the distinction clear, so that bug
          reports and the like land in the right place.

        - Work on MLZ started in 2009, and my first approach to the
          Bluebook editors was in 2011.

    Foreword: Normalize to BabyBlue as in text. [rmzelle]

    Foreword: Fix typos [rmzelle]

    Foreword: Adjustments to grammar. [rmzelle]

    Foreword: Normalize references to "Bluebook" [rmzelle]

      * Normalize on "the Bluebook" (over "The Bluebook") in running sentences.

      * Normalize ordinals and capitalization of Bluebook editions.

commit 05b919d369b8e51219c58ab6a9f765cf76e9ce68
Author: fbennett <biercenator@gmail.com>

Date: Wed Jan 13 12:33:12 2016 +0900

    Cover: Fill out alt text and center for cover photo. [fbennett]

      * When the text is displayed instead of the cover photo, the full
        form looks nice. text-align takes effect on the ALT tag text when
        it is used to replace the IMG source (tested in Firefox only).

    Cover: Normalize to BabyBlue as in text. [rmzelle]

    Cover: Force lowercase in title. [fbennett]

commit e85cb165914933278c560a4ba515db668dc71544
Author: fbennett <biercenator@gmail.com>
Date: Wed Jan 13 14:11:22 2016 +0900

    Layout: Add small hard margin to left and right. [fbennett]

      * On a small laptop monitor (1600x900), the text was aligned with
        the margins exactly, and the left-offset of the second-level Rule
        headings was moving the "R" beyond the visible area. (tested under
        Firefox)

    Layout: Provide rule for forced lowercase in title. [fbennett]

commit 2d5bb8de6371bc901e1032c630b5455b693730dd
Author: fbennett <biercenator@gmail.com>
Date: Sat Jan 16 08:54:26 2016 +0900

    Metadata: Normalize to BabyBlue as in text. [rmzelle]

commit a57b184159e78bb2850f9cf6e9583c0c027b855f
Author: fbennett <biercenator@gmail.com>
Date: Tue Jan 12 11:57:17 2016 +0900

    Initial commit
