REVISION RECORD FOR THE
STATE OF CALIFORNIA

EMERGENCY SUPPLEMENT

October 23, 2008

2007 Title 24, Part 2, California Building Code

PLEASE NOTE: The date of this emergency supplement is for identification purposes only.
See the History Note Appendix for the adoption and effective dates of the provisions.

It is suggested that the section number as well as the page number be checked when inserting this material and
removing the superseded material. In case of doubt, rely on the section numbers rather than the page numbers be-
cause the section numbers must run consecutively.

It is further suggested that the material be retained with this revision record sheet so that the prior wording of any
section can be easily ascertained.

Please keep the removed pages with this revision page for future reference.

Note

Due to the fact that the application date for a building permit establishes
the California Building Standards code provisions that are effective at
the local level, which apply to the plans, specifications, and construction
for that permit, it is strongly recommended that the removed pages be
retained for historical reference.
