I'm confused ... you asked "why you think people deserve access to court docs" ... you know this is about the law, not court filings?

Have you seen the letters that have been exchanged between Georgia and myself?

Also, the court docket is here in case you haven't seen it:

My congressional testimony on Edicts of Government, including a discussion of Georgia, is here:

We had a similar showdown with Oregon but no court case. They did the right thing and held hearings and then decided that the law belongs to the people.

I have to run out to a doctor's appointment will be back in an hour or so. Would be happy to talk.
